

## OPERATORS APPROVE HOOVER PROGRAM FOR DISTRIBUTION OF COAL AND CURB ON PRICE

### LEGALITY OF PLAN O.K.'D BY DAUGHERTY

Proposals for Tightening Up of Voluntary Price Agreements and Establishment of Pools Laid Before Operators

### DISTRIBUTION TO BE HANDLED THROUGH CENTRAL COMMISSION

Controlled Through Pool in Producing States and Preferential Distribution of Cars

WASHINGTON, D. C.—Operators from the producing districts of six states in conference Monday, with Secretary Hoover agreed in principle with the administration's plan for maintaining prices and insuring fuel distribution during the strike emergency.

The operators, it was stated after the conference, had agreed to the general proposals, as outlined by Secretary Hoover, subject to the approval of their respective districts, but had raised some objections to the 10-20 feature of the scheme.

Immediately upon adjournment of the meeting, the chairman of the committee of operators representing that various districts went into session with Mr. Hoover to draft the details of the coal control plan which is to be submitted to the full conference. It was expected that the detailed program would be ready for submission at another meeting of the conference later in the afternoon.

The administration plan for preventing profiteering in coal and insuring fuel distribution during the strike emergency was presented by Mr. Hoover at the conference in which nearly a hundred non-union operators and government officials took part.

Establish Coal Pools  
One proposal laid before them by Mr. Hoover provides for the tightening of existing voluntary agreements to maintain fair prices, and the other for establishment of coal pools in the producing districts for preferential distribution under the authority of the interstate commerce commission.

Attorney General Daugherty was preparing to report to Mr. Hoover during the day upon legal phases of the emergency fuel control program, and it was understood that price maintenance was up for first consideration by the conference.

Mr. Hoover was understood to take the position that the conference was held to deal entirely with the two problems presented and not to consider means for settling either the coal or railroad strikes.

Seek Aid of Coal Dealers

Representatives of coal dealers were present at the opening of the conference and it was thought that their cooperation would be sought in the emergency.

## LENROOT PROMISES FIGHT ON TARIFF SCHEDULE ON WOOL

Wisconsin Senator Demands Reduction to Sixty Per Cent Duty on Coarse Wool

### COMMITTEE MAJORITY TO STAND PAT ON DUTIES AS FIRST DRAFTED

Reduction Not Possible Declares Smoot of Utah

WASHINGTON, D. C.—The finance committee majority possibly will stand pat on the duties in the wool schedule as originally recommended to the senate. Senator Lenroot, republican, Wisconsin, who wants a 60 per cent maximum duty on coarse wool, both in the raw and in the finished manufacture, said Monday, however, that if this were done there would be a fight in the senate.

Senator Smoot of Utah, in charge of the wool schedule for the majority, and the other committee members take the position that the amendment proposed by Senator Lenroot is not susceptible of administration. The Utah senator has been endeavoring to work out a plan along the line of the Lenroot amendment that would be workable but he said he had little success.

A tentative cut of five percent in the duties on clothing cloth and other wool manufactures was agreed upon last week by the committee majority, but members said there was little likelihood that any reduction would be recommended.

## SHERIFF WOUNDS MAN IN BATTLE AT RICHLAND CENTER

John Owen Shot Through Lung Resisting Arrest for Drunkenness

John Owen, 45, a railroad employee residing at Richland Center, was shot through the right lung and perhaps fatally wounded in a pistol duel with the sheriff of Richland county at 8 o'clock Sunday night.

The wife of Owen complained to the authorities that her husband had been drinking and was causing disturbance. When the sheriff and a constable went to arrest him he obtained a revolver and attempted several times to fire on the officers. The sheriff shot him through the right lung. It was said by the physician in charge at 7 o'clock Monday morning that Owen had little chance to live.

Moonsboro is blamed for the affair by Owen's neighbors, who said he was "drunk drunk."

### U. S. CHANGES IN MANDATES O. K'D BY WORLD LEAGUE

LONDON.—By The Associated Press.—Since the approval of the Palestine and Syrian mandates by the council of the league of nations Saturday the secretary of the league has been going over the texts in order to have them conform technically with other mandates given by the league and to embrace all the changes suggested by the American government. The mandates will be presented in final form to the council Monday afternoon for formal confirmation and publication.

The council of the league will meet again the last week in August and the assembly of the league the first week in September.

### INVENTOR OF UKULELE DEAD

HONOLULU.—Correspondence of the Associated Press.—Mannuel Nunes, inventor of the ukulele, died at his home here of heart disease after a long illness.

His death brought to light that, contrary to general belief, the ukulele was known to the Hawaiians only after the advent of the white man. Nunes was born in Funchal, Madeira in 1843, and came to the islands in 1875. The following year he fashioned a rude guitar-like instrument with a cigar box and a few strings. It was from this that the ukulele of today evolved.

BOY HERO GETS MEDAL  
APPLETON, Wis.—Clarence Egbert, 11, was presented with a medal by the Rev. Theodore Marth, pastor of his church, in recognition of his bravery when he risked his life last winter to avoid striking a playmate while coasting down hill. The medal was given by the Ralston-Purina Hero Commission of St. Louis, Mo. The boy crashed into a post in order to avoid his pal and was so badly injured he spent six weeks in bed.

## CHICAGO MOTORIST STRIKES GIRL NEAR BATH HOUSE SUNDAY

Harry Ayd Runs Down Gunder Wadler Who Was Sitting on West End of Bridge

### DRIVER FAILS TO STOP; IS CAUGHT AT THIRD AND VINE

Six Other Cases, Five on Speeding Charges, Heard

HARRY AYD, who claims Chicago as his residence, was arrested Sunday on a charge of driving his automobile while under the influence of liquor. He was fined \$52.50 in court before Judge C. W. Hunt Monday morning.

Police claim that Ayd struck Gunder Wadler, aged 18, who was sitting on the curb near the bath house Sunday afternoon. The girl was pushed over the curb but was not seriously injured, police said. On Monday, Ayd told the police he was unaware of striking the girl. He failed to stop after the accident, and was arrested near Third and Vine streets.

Attorney F. E. Withrow, appearing for Ayd, paid the fine and attached the machine for security until reimbursed.

Six other cases, four on a charge of speeding, one reckless driving and the other intoxication, were heard in police court Monday. They were: Orlando Schultz, reckless driving, pleaded not guilty and case adjourned until 3 o'clock Monday afternoon; Edward Clark, drunk, \$7.50; John Hepp, drunk, \$12.50; Gordon Taggart was arrested on a charge of speeding, pleaded not guilty and the case adjourned until 3 o'clock.

Tom Hall, J. Johnson and Ewald Isabel, paid fines of \$7.50 on Saturday on charges of intoxication.

## JEFFERSON BARRACKS IS TRANSFERRED TO CHICAGO COMMAND

WASHINGTON.—The St. Louis region, including Jefferson barracks, the largest regular army post in the vicinity, has been transferred from the 7th corps area to the 6th corps area and will hereafter be under the direction of Major General Bell at Chicago. It was learned Monday at the war department. The change gives General Bell a considerable additional force stationed in a territory where there are many important railway centers and while the reason for the transfer of command was not disclosed, it was generally understood to be in connection with possible use of federal troops in the event of disturbances arising from the rail strike situation.

## OFFICER PERSONNEL OF U. S. ARMY TO BE REDUCED 2 THOUSAND

WASHINGTON.—The board of the general officers, headed by Major General Jos. T. Dickman appointed by Secretary Weeks in compliance with the current army appropriation bill, was called in its first session at the war department Monday to begin selecting nearly 2,000 regular officers, who are either to be retired, demoted one grade or honorably discharged, in order to cut the officers corps by the first of the year to the limits fixed by Congress.

The records of nearly 12,000 officers must be examined by the board in order that the separations from the active service required can be completed by December 15, the date set by the war department.

## BOOST IN ALCOHOLIC DEATHS REPORTED BY NEW YORK PHYSICIAN

NEW YORK.—An increase of nearly 50 per cent in alcoholic deaths this year over losses of 1920 and 27 per cent over 1921 has been reported by the chief medical examiner for New York. The report shows that 80 persons died from alcoholism in the first six months of this year.

## ASKS SENATE PROBE OF WOOL TARIFF CHARGES

WASHINGTON.—Seeking to determine whether or not there is any truth in the statements made that the prices of suits and overcoats will advance \$4 to \$7, respectively, as a result of the operation of the wool schedule of the McCarver-Fordney tariff bill, Senator Gooding, republican, of Idaho, has introduced a resolution in the senate calling for an investigation of the matter.

Senator Gooding referred to the charges made by W. M. Goldman, of New York, clothing manufacturer, which have resulted in a widespread publicity being given to the campaign against the tariff provisions. Mr. Goldman has charged that the \$65,000,000 of wool used by the clothing industry if the tariff rates are made operative, will be increased to \$80,000,000.

## FRIENDS IN ROW OVER INDUSTRIAL LAW IN KANSAS

William Allen White (above), Kansas editor and author, says the Kansas industrial law is being used to repress free speech. So he posted a sign in the window of his newspaper, the Emporia Gazette, expressing sympathy for the rail strikers, hoping to make a test case of it. His friend, Governor Henry J. Allen (below), immediately ordered White's arrest. Both say the proceeding will not interfere with their friendship for each other.

## NORTH BEND MAN KILLED WHEN CAR UPSETS ON ROAD

George Emerson Crushed Under Auto; Gus Berg, Owner and Driver, Escapes

George Emerson, 42, single, who lives about a quarter of a mile east of North Bend, was killed Sunday evening when the car in which he was riding turned turtle at a bend in the road a short distance west of North Bend. Emerson was riding with Gus Berg, North Bend blacksmith, and owner of the car, a new Nash roadster. Berg escaped with only a few scratches. The men had been in La Crosse for Sunday and were returning to their homes when the accident happened. The wheels on the left side of the car were broken, the right fender and top were crushed. The foot brakes were set and the engine in gear when rescuers arrived. Emerson will be buried Wednesday at 2 p. m.

## DROP INDICTMENTS IN KNICKERBOCKER THEATER DISASTER

WASHINGTON, D. C.—Indictments against five persons in connection with the Knickerbocker theater disaster of last January in which 97 lives were lost were dismissed Monday by Justice Siddons of the District of Columbia supreme court who sustained demurrers.

## HERE'S A REAL ONE

Here's a fish story without a fish. Joe Magner and Leo Simonson, Burlington fishermen, took a little trip to French Lake Sunday for an afternoon's fishing. After spending some time there they found that the only things that were biting were the mosquitoes, and were just giving up in disgust and preparing to return home when they were surprised to find a big black crow perched on one of the cars.

Moving the car didn't seem to frighten the bird, so Joe stuck out his hand. Mr. Crow calmly hopped up onto Joe's arm. Joe, not to be outdone, reached in his bait can and drew out a fat angle worm which he offered to his guest. The crow took it, and without even an expression of thanks, flew away.

"This strange, but true—we have Austin Riley's word for it."

## IRISH IRREGULARS HARD PRESSED BY FREE STATE ARMY

Insurgents Retreating Into the Mountains Pursued Closely by Nationalists

### FREE STATE FORCES EXTEND GAINS IN WEST IRELAND

Capture of Limerick Followed by Further Successes

LONDON.—By The Associated Press.—Unconfirmed reports received in London Monday said the Irish irregular forces were retreating with all speed into the Galtee and Knockmealdown mountains, harassed by free state troops who are pressing them hard and preventing them from concentrating for resistance.

A Waterford dispatch to the Daily Express says the irregulars have burned the barracks at Clonmel and Tipperary which had long been held as garrisons and it is believed the national army forces have occupied both of these places.

This, however is not claimed in any official report.

### Extend Successes

DUBLIN.—By The Associated Press.—National army troops have gained a fresh victory in West Ireland by capturing Ballyvaunis, county Mayo, from the republican irregulars, it was announced Monday.

The free state triumph in the capture of Limerick was swiftly followed by successes in the surrounding district.

The total number of casualties in the Limerick fighting has not been accurately estimated although it is known that at least 15 of the national troops were killed and 87 wounded. It is generally believed that at least 30 of the irregulars lost their lives. The total number of casualties suffered by free state forces during the capture of Waterford was 9 killed and 19 wounded.

### Two Girls Killed

BELFAST.—Two girls, age 15 and 16 years, returning from free state to northern Ireland territory at Jonesborough, County Armagh, Sunday night were ordered to halt. They failed to obey and were fired upon and killed.

Near Newry, a girl on her way home from church with her father, was hit by a stray bullet and is in a critical condition.

In Dublin two men were killed when an armed band attempted to raid a public house.

## INJURIES RECEIVED IN FALL FATAL TO WISCONSIN PRIEST

MILWAUKEE.—The Rev. Robert James Roche, 67, pastor of Holy Rosary church for 22 years, died at a local hospital as the result of injuries received in a fall last Wednesday. Father Roche retired from Holy Rosary parish in 1920 and took St. Mary's parish at Milton Junction, Ill. his health requiring the less strenuous duties of a smaller parish. Father Roche came to Milwaukee last Wednesday to attend a meeting at the residence of Archbishop S. G. Messmer. When entering a restaurant he fell and fractured his hip. He was born on a farm in Osego township, Ill. in 1855 he was ordained a priest by the Rt. Rev. Michael Heiss, bishop of La Crosse. His first parish was Meeme, Manitowoc county. In the spring of 1882 he was appointed to St. Mary's, Janesville, and to the Holy Rosary parish, Milwaukee, in 1898.

## MERCHANTS VISIT PIG CLUB AGAIN NEXT WEDNESDAY

The pig club of the merchant's bureau of the Chamber of Commerce will make the last of its tours of visits to the 1922 pig winners next Wednesday afternoon. Notices were sent to the 22 merchant members Monday morning, and a full quota is expected for the last trip. The Wednesday tour will be made in the vicinity of West Salem, where there are eight winners to be visited.

## AUTOMOBILE BURNS AFTER COLLISION FIVE ARE KILLED

SAN FRANCISCO, Cal.—Five persons were dead Monday and four others were believed dying as the result of a collision here between an automobile and a street car. The automobile, after turning over, burst into flames burning the victims badly before they could be rescued. The victims were all of one family.

## ORLANDO REFUSES TASK OF FORMING ITALIAN CABINET

ROME.—By The Associated Press.—Former Premier Orlando after an hour's consultation with King Victor Emmanuel Monday, is reported to have refused to form a cabinet to succeed that of Premier De Facta which resigned last year.

## GOVERNMENT INTERVENTION IN STRIKE OF SHOPMEN IS EXPECTED IN NEAR FUTURE

### LLOYD GEORGE AND POINCARÉ MEET TO TALK REPARATIONS

Decision on German Appeal for Moratorium, Delayed Pending Conference

### WORLD COMMITTEE OF BANKERS MAY BE CALLED TO MEET AGAIN

Meeting of Premiers is Scheduled for Early in August

### PREDICT SUCCESS OF PENNSY'S EFFORTS FOR SEPARATE PEACE

Other Roads Expected to Follow if Agreement is Reached

### CHICAGO.—By The Associated Press.—With government officials maintaining silence in regard to the railway strike, except for the announcement of Chairman Locomotive that the railroad labor board would make no further move at present, interest Monday was centered in the separate peace efforts of officials of the Baltimore and Ohio railroad in their meeting at Baltimore Tuesday with representatives of the striking shopmen. Despite the failure last week of similar efforts made at St. Paul by Northwest roads, it was confidently predicted that the Baltimore conference would obtain favorable results.

Should the meeting result in an adjustment of differences it was expected that other railroads would follow the same course.

The silence of federal officials was interpreted as meaning that President Harding was inclined to let the situation drift for a few days, while he received the report of Secretary of Labor Davis and further inquired into facts.

### Expect Action by Harding

However, that the President might take some action soon was indicated in his efforts to obtain the facts from all angles. The conference Friday between members of the senate interstate commerce committee and eastern rail chiefs, the conference with Chairman Hoover and Secretary Davis' meeting at Mooseheart, Ill., with strike leaders, a member of the labor board and a commissioner of conciliation of the department of labor, seemed to strengthen the belief that a definite plan was being made. Possible action by the interstate commerce commission was seen in the statement of Attorney Gen. Daugherty that the commission could exercise a supervisory power over carriers. But this would probably mean that the commission would direct distribution of coal under a system of rationing, sending it first to points in greatest need.

## FILE NOMINATION PAPERS FOR ENTIRE DEMOCRATIC TICKET

Judge Graas of Green Bay Enters Campaign for Congress Against Hall

MADISON, Wis.—Judge Henry Graas, of Green Bay, filed nomination papers with Elmer S. Hall, secretary of state, today as opponent to Mr. Hall in the race for congress in the ninth Wisconsin district. George Schneider, the third candidate entering the congressional contest in this district, filed papers on Saturday.

The complete democratic state ticket entered the primaries with the filing of their nomination papers today. Mrs. Ben C. Hooper of Oshkosh, as candidate for the U. S. Senate headed the list. A. Bentley of La Crosse, and Karl Mathie, Wausau, filed as democratic candidates for governor, Peter S. Brzonkala as candidate for secretary of state and J. M. Collins of Sheboygan as candidate for attorney general.

## MOVIE CENSORSHIP NOT FEASIBLE SAYS DIRECTOR WILL HAYS

LOS ANGELES, Cal.—Will H. Hays, former postmaster general and now head of the motion picture producers and distributors association, here Monday for a week's study in the stronghold of the industry, said to interviewers that "The principle of freedom upon which this nation was founded makes public censorship of press, pulpit, film or spoken word virtually an impossibility."

Mr. Hays predicted: "State-wide or nation-wide censorship will fail in everything it undertakes. It hasn't been done successfully and never will be. Too many people who know nothing about the business are named on censorship bodies. We are going to obviate the necessity of censorship."

## U. S. ASKS BRITISH AID IN STOPPING LIQUOR RUNNING

LONDON.—By The Associated Press.—The British government has received a note from Washington, it was announced Monday, asking cooperation in the suppression of liquor running into the United States through Bermuda and the Bahamas.

## RIVERSIDE BAND CONCERT TUESDAY

The La Crosse City Band will give a concert in Riverside park Tuesday evening at 7:45 p. m.

## DEFINITE MOVE BY PRESIDENT IS LOOKED FOR

Efforts of Harding to Obtain Facts From All Angles of Strike Leads to Belief He Plans Immediate Move

Other Roads Expected to Follow if Agreement is Reached

### CHICAGO.—By The Associated Press.—With government officials maintaining silence in regard to the railway strike, except for the announcement of Chairman Locomotive that the railroad labor board would make no further move at present, interest Monday was centered in the separate peace efforts of officials of the Baltimore and Ohio railroad in their meeting at Baltimore Tuesday with representatives of the striking shopmen. Despite the failure last week of similar efforts made at St. Paul by Northwest roads, it was confidently predicted that the Baltimore conference would obtain favorable results.

Should the meeting result in an adjustment of differences it was expected that other railroads would follow the same course.

The silence of federal officials was interpreted as meaning that President Harding was inclined to let the situation drift for a few days, while he received the report of Secretary of Labor Davis and further inquired into facts.

### Expect Action by Harding

However, that the President might take some action soon was indicated in his efforts to obtain the facts from all angles. The conference Friday between members of the senate interstate commerce committee and eastern rail chiefs, the conference with Chairman Hoover and Secretary Davis' meeting at Mooseheart, Ill., with strike leaders, a member of the labor board and a commissioner of conciliation of the department of labor, seemed to strengthen the belief that a definite plan was being made. Possible action by the interstate commerce commission was seen in the statement of Attorney Gen. Daugherty that the commission could exercise a supervisory power over carriers. But this would probably mean that the commission would direct distribution of coal under a system of rationing, sending it first to points in greatest need.

### Trucks Move Perishable Goods

Railroads which had declared embargoes on perishable freight continued to enforce the ban and motor trucks were pressed into service in several instances.

Few disturbances were reported over Sunday. Authorities at Lynn, Mass., were searching for an unidentified non-union worker who was said to have caused the death of a strikebreaker by pushing him in front of a moving train. A disturbance at Cedar Rapids, Iowa, resulted in the injury of a guard and a non-union shop worker.

### Pennsy Asks Injunctions

INDIANAPOLIS.—The Pennsylvania railroad company filed two petitions in U. S. District Court here Monday for temporary injunctions to restrain their striking employees from interfering with the operations of its lines in Indiana. A hearing on the petitions will be held here later in the day before federal judge Baker of Chicago.

One of the petitions is on behalf of the Fort Wayne division of the road and names 125 defendants and the other is in behalf of the Pan Handle division which operates in and out of Indianapolis and names 1,300 defendants.

### Get's Employees' Side

NEW YORK.—A challenge to President Harding and Ben W. Hooper, chairman of the U. S. Railroad Labor Board, to study the rail strike situation, "not only from the strikers' standpoint, but from the standpoint of the present employees," was issued Monday by J. F. Loree, president of the Delaware and Hudson and chairman of the Eastern Railroad Presidents' conference.

"As far as I am advised," he said, "neither the President nor the chairman of the labor board has ever made an effort whatsoever to ascertain the viewpoint of the employee. The strikers' point of view has been developed at great length but no effort has been made to develop the employee's point of view."

He called a meeting Monday of the presidents of forty roads, members of the Eastern Conference, to (Continued on page six)

# WOMAN CANDIDATE OUT FOR SHERIFF IN TAYLOR COUNTY

Wife of Farmer Declares She'll  
be "Honest-Goodness-Sher-  
iff" if Elected

MADISON, Wis.—A woman candi-  
date who says that she will be an  
"honest-to-goodness" sheriff if elect-  
ed to office, is in the field for the  
Republican nomination in Taylor  
county.

Mrs. Charles Pitzke, 30, the wife  
of a farmer, and mother of eight  
children, is the candidate who is ask-  
ing election from the voters of the  
county. She claims that if named for  
the office she can handle all of its  
duties.

Physically, Mrs. Pitzke is the equal  
of almost any man. She is six feet tall  
of a sturdy build, and in the best of  
trim from outdoor work on the farm.

The candidate says that she has de-  
monstrated her ability to efficiently  
handle the position of sheriff if elect-  
ed to it, by the fact that she has  
raised a family of eight children. No  
one challenges her physical qualifi-  
cations, Mrs. Pitzke says.

She is carrying on an active cam-  
paign throughout the county and is  
confident of the Republican nomina-  
tion at the September primaries  
against her male competitors as chief  
county law enforcement officer.

## HEADS "SIZED UP"

The size of a man's cranium has  
nothing to do with the size of his  
head. Truly big-headed men are  
usually so modest you have to push  
them into their honors.

Often big heads are bestowed by a  
pitying providence to compensate for  
the lack of gray matter their bigness  
would suggest.

Napoleon was a small man with a  
bullet-shaped head. But he was dic-  
tatorial and imperative. But then  
you can forgive such a fellow, when  
he has the goods. It's the would-be  
that try men's souls.

Many of the nation's greatest men  
have very ordinary-sized heads. In  
fact, they offer no suggestion of  
the big head when viewed from any  
angle.—Grit.

### Admonitory

Someone says: "In private, watch  
your thoughts; in the family, watch  
your temper; in company, watch your  
tongue." That is mighty good advice,  
and we are not hurting it any when  
we add, "and in a crowd, watch your  
watch."—Boston Transcript.

# STLYES IN PETS SHIFT; HERE ARE LATEST

By MARIAN HALE

Fido and Tabby, too, found life  
much simpler in the good old days.  
Then they did no pass in and out  
of fashion like earrings and short  
skirts, here today, tomorrow gone.

They held their place in the house-  
hold favor for life and good behavior  
—but now, alas, the prevailing pet of  
one season may find himself despised  
and rejected the next.

Every woman these days has her  
dogs.

In sleeve dogs, you can do no bet-  
ter than select something nice and  
wooly in a Pom or Peke. He will fit  
ever so neatly with room to spare in  
your flowing sleeve and will be com-  
pany for you, besides giving you the  
assurance that comes from being ap-  
propriately caressed.

For your country dog get some-  
thing dark and serviceable in the  
way of an Airedale.

One cannot give too strong sar-  
torial recommendation to the Belgian  
police dog and the wire-haired ter-  
riers, preferably Seelieham, Scot-  
tish or West Highland.

Pick these not for their beauty, for  
they have none, but for their intelli-  
gence.

Like the blue serge suit perennially  
worn is the snappy little bull pup.  
His lines are so harmonious with  
those of the motor that he will al-  
ways be the favorite with motorists.

But you need not stop with dogs.  
Consider the monkey. He is the real  
pet of the moment with theatrical  
folks and the Bohemian element. You  
can have the pocket edition, the tiny  
marmoset with a face no bigger than  
a silver dollar, or the regular sized  
animal, about as big as a cat.

Snakes now are purchased at pet  
stores and are quite fashionable.  
The heaviest snake trade is said to  
come from professors and scientific  
men. A playful python or a beau-  
tiful boa, as well as many of the  
lesser undulators, are said to afford  
great intellectual relaxation.

The fashionable feline is the Per-  
sian kitten. Her rank is undisputed.

Tropical parrots and birds are  
suitable trimming for any home. For  
\$150 you can get a really imposing  
creature to live in a brass ring.  
Tropical fish, with fan tails, give  
a touch of elegance to any aquarium,  
and are much more desirable than  
the simple gold fish that you get  
with cigar coupons or soap certi-  
ficates.

### Finis

Movie Director: "Now here is  
where you jump off."

Star: "I know, but suppose I'm  
hurt?"

Director: "That's all right old  
man. It's the last scene in the pic-  
ture."—American Legion Weekly.

## PADEREWSKI IN PARIS

PARIS.—By The Associated Press.  
—Ignace J. Paderewski, pianist  
statesman, reached Paris Monday. He  
was met by a number of compatriots,  
several of whom showered him with  
flowers.

After reaching the hotel he went  
in conference with Major Iwonowski  
who said he thought some solution  
of the Polish crisis could be found.

## The Natural Scale

"Does it require much education to  
be a musician?"  
"No," declared Mr. Growcher. "So  
far as immediate requirements of a  
tune are concerned, he doesn't even  
have to know the alphabet any ear-  
lier than the letter 'G.'"—Washing-  
ton Star.

Tokyo, Japan, was formerly called  
Yeddo.

# MOVEMENTS OF VILLA CLOSELY WATCHED BY OBREGON REGIME

Observers Doubt Complete Paci-  
fication of Former Bandit  
Leader as Claimed

MEXICO CITY.—Despite his re-  
peated assurances that he is no longer  
a bandit but a gentleman farmer of  
the state of Durango, the movements  
of Francisco Villa are being closely  
watched in official circles here. To  
some observers it is difficult to be-  
lieve that this former guerrilla has  
accustomed himself to the routine of  
peaceful life and is now finding in his  
growing crops and lowing herds the  
contentment that a man of his tre-  
mendous nervous energy derived in  
the past from daring deeds of war-  
fare.

Is Villa the staunch friend of the  
Obregon administration that his  
friends claim for him? Will Villa  
stay out of politics and play no part  
in the forthcoming congressional elec-  
tions? In the event of a serious  
threat against Obregon's power would  
Villa rally his 4,000 ranchers in be-  
half of the president or would he  
lead his men in a new revolution? These are the frequent questions of  
the street here and the answers are as  
varied as those who make reply.

The pacification of Villa is pro-  
claimed by the friends of Provisional  
President de la Huerta as the one big  
achievement of his short adminis-  
tration in 1920. To secure the peace  
pact with the famous bandit it was  
necessary for the Mexican govern-  
ment to grant him an extensive tract  
of land on which his faithful follow-  
ers, numbering some 4,000, might  
work and prosper. There was also a  
transfer of considerable cash which  
Villa said he needed to develop his  
new ranches. It is also understood  
that one of the stipulations of the  
agreement was that Villa was to stay  
out of politics.

Villa settled in the state of Duran-  
go and the few persons who have  
visited his hacienda report that he is  
an enthusiastic farmer. Of late, how-  
ever, stories have been creeping out  
of the north to the effect that fur-  
rowed fields and bloated dairy stock  
are commencing to pall and that to re-

lieve the monotony, the caplor of Col-  
umbus is mixing just a trifle in the  
state politics of Durango. Some re-  
ports are that he has been asked to  
run for governor and has consented,  
but persons close to the man deny  
the rumors. No matter what the facts  
the uncertainty of Villa's action is  
causing considerable comment in the  
capital which within the past two  
months has been put on the qui vive  
several times by "authentic" state-  
ments that the Durango rancher was  
on his way to Mexico City to consult  
with his president. He has never ar-  
rived and there is small possibility  
that he will come.

All of which has merely served to  
revive the months' old questioning—  
will Villa stand fast no matter what  
turmoil might arise in Mexico City?  
If one is to believe stories of Villa's  
heavy investments in oil drilling out-  
fits and his rumored plans to rebuild  
a stockyard and packing house at  
Ciudad Juarez which his men destroy-  
ed several years ago, there is reason  
to think that the Canutillo farmer  
is just that and nothing more. On  
the other hand, visitors at the ranch  
say that the Canutillo arsenal is well  
supplied with arms and ammunition.  
But as they say, Villa must arm him-  
self to protect his ranch from band-  
its.

## WHEW!

Two thirsty colored brethren were  
arguing as to the results of the Vol-  
stead act in their respective communi-  
ties.

"Smifhtown am so dry milk has to  
be delivered in cans instead o' bot-  
tles," vouchsafed Mose.

"Humph!" sniffed Rastus. Jones-  
ville am so plumb dehydrated that  
de engineers kaint get de 'spress

train to whistle deir toots inside the  
town limits."—American Legion  
Weekly.

## His Next Anniversary

Bobby was four years old and so he  
had a birthday party. About a week  
later some friends called on us. One  
of them asked Bobby how old he was,  
and he replied, "When I have an-  
other party I'll be five."—Chicago  
Tribune.

## Cigarette

It's toasted. This  
one extra process  
gives a rare and  
delightful quality  
—impossible to  
duplicate.

Guaranteed by

The American Tobacco Co.

# PLUM CHERRY

OPATA and SAPA

A cross between the Golden Plum, the Sultan Plum and a  
western Mountain Cherry. Fine for canning, make de-  
licious preserves and the best of jelly. Grown on the  
Royalrange Poultry farm on Mormon Coulee road. J. H.  
Bean, owner.

For sale this week at all grocers or at orchard. Buy now, season  
will be short.

# A Full Meas- ure of Service

THE First Quarterly Summary of  
Refinery Statistics issued by the  
Bureau of Mines (1922) states that  
25% more gasoline was purchased by  
consumers in January, February and  
March, 1922, than in the corresponding  
period of 1921. Many well-informed  
marketers are predicting that there will  
be an insufficient supply of gasoline  
this summer in the Middle West.

The Standard Oil Company (Indiana)  
has increased its facilities so largely  
that it feels safe in stating that it will be  
able to render to the people of the 10  
states it serves that degree of service  
which the public has come to expect  
from this organization.

The manufacturing facilities of the  
Standard Oil Company (Indiana) have  
a capacity of more than one billion gal-  
lons of gasoline per year. These facilities  
are being operated 24 hours every day  
that patrons may be certain of securing  
their requirements of petroleum prod-  
ucts as they need them.

When the flood tide of demand occurs,  
car owners will realize that the Standard  
Oil Company (Indiana) has anticipated  
their needs fully and completely.

When a motorist fills his tank at a con-  
venient service station in some remote  
corner of the Middle West, he may  
never stop to consider the vast and com-  
plicated machinery needful to put that  
gasoline where he wants it at the  
moment he needs it most. But he will  
appreciate that it is there.

He may never know that serving him  
involves experienced executives of trained  
initiative and resourcefulness; enormous  
expenditures for labor and raw material;  
great, modern refineries continuously  
operated; immense storage facilities; a  
magnificent distribution system; and  
the uniform effort of an organization of  
25,000 men and women. All this is back  
of that small quantity of Red Crown  
gasoline which every summer tourist  
confidently expects to purchase and  
surely finds at all points in the territory  
served by the Standard Oil Company  
(Indiana).

This the Standard Oil Company  
(Indiana) considers genuine service.

Standard Oil Company  
(Indiana)  
910 S. Michigan Ave., Chicago, Ill.

## HEART DECEITFUL

THE heart is deceitful above all things, and desperately wicked, who can know it?—Jeremiah 17: 9.

## Soldier Students

WHAT'S the use of educating American soldiers who returned from the war handicapped by disabilities?

Of course there is education for its own sake, and that counts in any case, but in the matter of these American veterans the major purpose was to fit them for economic independence and human service in such lines as the individual might be qualified to follow.

Getting ready to follow a line is one thing; getting the line to follow is another. In other words, America has done but half its duty when it prepared its disabled soldier for a life of usefulness. Its task is not finished until the man has acquired the job in which he can succeed.

One may be inclined to forget these things, but we should not, for the problem will never give us rest until it is rightly solved. There are 600 federal students in this district, training at the university, business or vocational schools, or in placement training with business firms. What they are going to do when they are done with school is our business as well as theirs.

And so it may be well to follow the success which they are achieving in school, because in some measure these records will disclose their value to society. It is interesting to note that in the school year just past 30 federal students at the university received honors for the full year, and in each semester the number scoring high honors ranges from 23 to 31. Notwithstanding the handicaps under which they labor, the scholarship of these American soldiers averages high throughout their university work.

It would be a poor citizen who did not find ground for satisfaction in the success achieved by these American service men. Despite certain coils of red tape, the government is doing its best, and the veterans' bureau is working intelligently to bring the soldier student into the business of the country in the manner that will serve him and the public best. But government cannot do it all. This is a country of private business, and private business has the jobs. Thus the citizen in private business should keep in touch with the federal students through the colleges and the veterans' bureau, and avail himself of their services wherever he happens to have the right job for the right ex-soldier student. It is the part of our contract with America and with the American soldiers.

## Candor

WE PRINT in this issue a letter from Herman L. Ekern, in which that candidate very handsomely performs the unusual political feat of admitting a mistake which made him unfair to his opponents, and doing his best to clear it up. We appreciate Mr. Ekern's courtesy; and welcome his realization of the efforts which we have consistently made to present both sides of every political issue. And in this connection a passage from Mr. Ekern's address at Ashland, relative to the state press, may be of interest:

"While Commissioner of Insurance of Wisconsin, I made it my business to see that the public was as fully informed as possible with regard to the work we were attempting to do and in this I had the hearty cooperation of the press. It had always seemed to me that this was a very vital part of the duty of both the public official and the press. I am certain that a very large share of the credit for the advanced position Wisconsin now occupies is due to the cooperation of this city by the press of our state."

It is reassuring to find a man under the banner of Governor Blaine candidly admitting the fairness and public spirit of Wisconsin newspapers. Mr. Ekern recalls "the heartiest co-operation" of the Badger press, and promises, if elected, to continue his policy of working with the daily papers in that service to the state which they rendered in conjunction with him when he was a state official.

We do not think Mr. Ekern made this statement in a moment of inadvertence. Probably it is not a slip of the political tongue regretted the moment it was out. For it is a fact that Mr. Ekern did co-operate with the press,

and it with him, probably to the advantage of Wisconsin. We recall on occasion upon which Mr. Ekern has trumped up issues out of the mass of generalities which one may utter with impunity because they can neither be proved nor disproved. Perhaps it is not too much to expect that he would accord common honesty even to newspapers that are not supporting him. His candor is commended for the earnest consideration of Governor Blaine.

## Tom Sims Says:

Thanks to radio broadcasting sermons, a man can stay at home and claim he has been to church.

An easy way to make a small boy bathe is to paint a "No Swimming" sign on the bathroom door.

In Indiana, another meteor has fallen. That's what the poets get for raving about the stars.

A plumber is held in the Chicago labor war. We claimed all along it wasn't the working men.

People go on picnics to forget everything. This usually includes salt and pepper for the eggs.

Figuring up all the expenses cut in Washington we find they pay us for the work they do.

Gas is up; but the real problem is, "How many miles can I get out of a pair of shoes?"

A two-cent stamp will go to any place in the world. So will the man who sticks like a stamp.

A school of politics for women has opened. First lesson should be smoking bum cigars.

The only objection to living in the country is you have to go to town for your vacation.

The tariff may be raising the price of wool suits; but the boll weevil is doing his part.

The Ohio tailor arrested for bootlegging will plead he had it for trying on hip pockets.

If you are well bred, after eating onions you will keep your mouth shut about them.

Man who changed seats in a canoe leaves one wife and three children.

Hollywood is so quiet these days the movie actors may be thinking.

Hint to Ireland: An alley-apple a day won't keep the doctor away.

No girl buying clothes wants the most she can get for her money.

The man who thinks he knows everything is usually mistaken.

The man who sings his own praises strikes up the wrong tune.

One aviator dropped four miles and lives; but it's a bad habit.

Only thing some people are saving for a rainy day is daylight.

In jumping at conclusions you seldom grab a good one.

A success is a self-starter. A failure is a self-stopper.

Money talks. I usually says "No."

## In Ye Olden Times

### TEN YEARS AGO TODAY

Miss Marie Beranek and Joseph W. (Billy) Wais, both well known in La Crosse, were married yesterday morning at St. Wenceslaus church by Rev. N. T. Hill. Mr. Wais was formerly a member of the La Crosse baseball team but is now a member of the Wausau club of the Wisconsin Illinois League.

Mrs. George Middleton, better known to fame as Fola La Pollette, daughter of Senator Robert M. La Follette, will speak here in favor of women's suffrage August 2. She will be accompanied by the well known author, Zona White, who will also discuss the suffrage question. While in La Crosse the two speakers will be the guests of Miss Gertrude Hogan.

More than 1,000 people attended the grocers' picnic at Clark Park yesterday. It was put on by the Grocers' Association and all grocery stores in the city were closed for the picnic.

A new act to be put on No. 2 fire station on N. Third street. The common council at last meeting voted to have the work done.

### TWENTY YEARS AGO TODAY

A deal was closed today whereby the Vol. A. Bigelow cigar company of La Crosse comes into possession of a large cigar store in Winona. The store is located at 113 Third street and will be in charge of Mr. Jones at present employed in the store. Mr. Bigelow also recently bought out the Hoxley cigar company of this city.

Machines which record sunshine, rainfall and wind velocity have been added to the equipment at the local weather bureau station.

Mrs. Mary Hoctor of 1717 Wood street, died yesterday morning at the La Crosse hospital after a short illness with pneumonia. Mrs. Hoctor was forty-eight years old.

Wooley and Hanson have made a big improvement at their stone quarry on Grandview bluff in the shape of a huge pump to furnish water for the crusher. Formerly the water had to be secured from an old well.

Tuesday evening the congregation of the Bethel Lutheran church gave a farewell party in honor of Mr. and Mrs. Barton who will leave soon for Canada to reside.

Rev. J. H. Hofer preached his first sermon in the Catholic church on St. Joseph's Ridge yesterday. Rev. Schmidt left last week to take charge of his new parish at Shell Lake, Wis.

### THIRTY YEARS AGO TODAY

Dr. Laflin is building a cottage above River Junction. It will be ready for occupancy next week.

John Turnbull yesterday began the erection of a large building on Caladenia street. The lower floor will be used for a feed store and the upper floor for a dwelling.

Out of the seventy-three trees planted on the causeway forty-two have died. It has been shown however that trees will live there and new ones will be planted to take the place of the dead ones.

The street car company is doing what it can to save the horses during the hot weather. The animals are changed every half trip. The custom has been to drive them the round trip, six and one-half miles, before changing.

Egid Rackner shipped an altar for a Catholic church in Madison to Father Pettit of that place yesterday.

Vincent Tancche has taken the contract to cover P. P. French's livery stable with sheet iron to make it preproof.

## A Caribbean Courtship

BY BEVERLEY BELL

During the five days' sail from New York to Porto Rico the good ship Sauter had kept such a good keel that not one of the two hundred passengers missed a meal in the dining room.

Marjorie Brainard had spent most of her time on deck with her aunt. She was a good sailor; her aunt a poor one. Which is another way of saying that by the third day out Marjorie was wishing fervently for some rough weather—the little breeze that blows off the sea.

The tall, dark, handsome young Spaniard who sat at the captain's table and whose eyes were forever meeting hers, holding them for just a moment with such a soulful look, had not yet been introduced to her. She felt sure he would be, if her aunt were to leave her alone on the deck for just one little half hour.

As the Sauter slowly steamed up the ten-mile harbor of San Juan passengers all ready to disembark, baggage piled high on the main deck, the tall Spaniard passed Marjorie and her aunt, and he looked very intently at Marjorie. At the same time a touch of red came to his brown cheeks; his eyes shone with an indefinable longing.

She was fascinated. She could not seem to drop her own eyes.

The young man's companion was an American.

As they came to a stop a few feet from Marjorie, she heard the American say: "Alvarado, tonight we shall be eating some of your superb grapefruit and oranges. What a fine rose I am to have! What wonderful air! And that sunset across the Caribbean! I've never seen its equal."

"Yes," replied Alvarado, "we shall endeavor to give you a good time."

"I am so happy," he returned, and then in a flash he took her soft white hand in his strong brown one, and looking with all the intensity of a long time of Castilian Spanish Alvarados he said: "Miss Brainard—Marjorie—must I go and bring your aunt, or take you to bed, or may I say it here to you, while we are alone—just we two? Speak, dear one, speak to me; you know what I would say?"

Marjorie had not moved her hand from him. It trembled. Perhaps her fingers trembled just a little.

"What do you wish to tell me?" she said, shyly laughing up into his eyes, for in their emotion they had risen and were standing on the edge of a great rock projecting over the waves of the blue Caribbean.

"That I love you; love you; love you, dearest girl!"

Then he caught himself with a mighty effort, and in a moment continued: "That I love you as a Spanish gentleman loves; honorably and with all regard for everything that is due you and to the rights, for instance, of your aunt who has invited us to come up here alone. Let us return to her and I will continue in her presence."

No one in the whole island of Porto Rico could possibly have had a greater surprise that day than fell to the lot of Vicente Alvarado when Marjorie said: "There is no need for that, Señor Alvarado. When we returned to the hotel yesterday I told my aunt that if you ever said you loved me I should tell you that I loved you, and she replied, 'I wouldn't blame you, dear, I could love him myself.' You see, dear, I am away from home, school and mother; here, at least, I am alone."

They came here eighteen years ago, on their honeymoon. He died three years after. This is her first visit since.

"When she saw you on the boat she said, 'There is a true Spanish gentleman.' When I said I would like to meet you she said, 'No, wait; we shall see what we shall see.' And now I understand."

## OUT OUR WAY

## "ENTER, THE FLAPPER"

Begin This Modern Romance of Wild Youth Dancing Through Passion's Flame.

Of course, nowadays the Cloven-Hoofed Breeder of Mischief doesn't have to hunt us. Our fast generation hunts him. But if old Harry were still on his old-fashioned hunt, he would pick just such a night as this, with Peggy Dean's mind wandering from her examination-room to the telephone.

Deep June, warm and languid, with an enormous, lazy moon flooding the world with blue-silver, brooded temptation to everyone indoors. Fourteen stories below, along Riverside drive, sounded musically the call of gliding motor cars.

The dark Hudson was set with jeweled lights of motor craft. From a smart restaurant, not far off, perched in its green park upon a knoll, absconders of dance music drifted to Peggy's senses.

But under her blatantly tipped world with blue-silver, brooded temptation to everyone indoors. Fourteen stories below, along Riverside drive, sounded musically the call of gliding motor cars.

The dark Hudson was set with jeweled lights of motor craft. From a smart restaurant, not far off, perched in its green park upon a knoll, absconders of dance music drifted to Peggy's senses.

The dark Hudson was set with jeweled lights of motor craft. From a smart restaurant, not far off, perched in its green park upon a knoll, absconders of dance music drifted to Peggy's senses.

Winnio Gummel's Geometry demanded that she give it her entire mind. If she didn't, tomorrow's exams for her senior class would fare badly.

But how easy it would be to turn the evening from a bore to something happy and thrilling! Mother was off to a dance at the yacht club with her brother and his wife, with whom the Deans lived. Peg's dad was dead.

The only persons left in the big apartment were two maids and Winnio, her cousin. Win, deep in her geom, was crumpling for the same examination.

Small, quiet and homey was Winnio—like a worn antique oriole. Peggy, Winnio wore "sensible" clothes. Peggy wore sporty ones. Winnio pawed for bed at half-past ten, at about which time Peggy yearned for jazz. Win's latest expression was years old. Peg had already discarded "flapper" as "necker" and "cater" as six months old, and whisky.

Winnio choked on tobacco smoke, would have choked at the first sip from a silver hip-flask, and would rather read George Eliot than Harold Bell Wright and Fannie Hurst.

Peggy did not choke on the occasions when someone poured from a flat "pocket candy" into her ginger ale. And she could hold her own with any boy in the patter and kidding of the day.

Decidedly this was not the night for Peggy Dean to grind at Gummel's geom. . . . What harm in just calling up Bob Vanderpool to see what he was doing? With a glance at Winnio's head bent over her study, Peggy sauntered to the telephone in the corner.

"Is Bobby there, Mrs. Vanderpool? . . . No? . . . Oh, I see, after the theater—half-past eleven? Well, I wonder if you'd ask him to come around . . . Oh, no—it's all right—"

A tinkle of laughter here—"perfectly all right. It won't be too late. . . . I'll expect him. Thanks so much. Good-by."

(To Be Continued)

## EXAMS FOR BEAUTY PARLOR OPERATORS SCHEDULED BY STATE

MADISON, Wis.—An examination for managers and operators of beauty parlors has been scheduled for August 15 and 16 in Madison, with headquarters at 225 State street. The state board of health will receive applications of candidates until August 4.

## SIMPLICITY ITSELF

A fair visitor was much taken by the complexity of the battle wagon's engines and delighted with her guide's explanations thereof, although she seemed surprised that the engineer did not know which way the ship was headed as he stood his watch below at the bridge.

"Well, miss, it's this way," he explained. "I'm an independent cuss, I am, and no matter which way the captain is steering the ship, I always keep my engines going straight ahead."—American Legion Weekly.

## POOR KITTY!

Four-year-old Bobby was stroking his cat before the fireplace in perfect content. The cat, also happy, began to purr loudly. Bobby gazed at her askance for a while, then suddenly seized her by the tail and dragged her roughly away from the hearth. His mother interposed.

"You must not hurt your kitty, Bobby."

"I'm not," said Bobby, protestingly. "But I've got to get her away from the fire. She's beginning to boil."—The Argonaut (San Francisco).

## SALZER EMPLOYEES TO GIVE A RIVER OUTING TUESDAY

The Salzer Seed Company Employees Mutual Benefit Association will give its annual river outing Tuesday afternoon on the steamer Capitol. The boat will leave at 2 p. m., making the down river trip. In the evening the E. R. A. will give a moonlight dancing party on the Capitol.

## THAT SETTLED IT

The girl's lips quivered and her breath came in labored gasps, but she did not speak.

"Do you love me?" pleaded the young man.

"I don't know," was the answer. Gently he insinuated his arm around her. "Darling, would you like me to ask your mother first?"

"With a sudden cry of terror she grasped his arm. 'No, no, no!' she shrieked convulsively. 'She is a widow; I want you myself.'—Minneapolis Tribune.

## Discourage Theft

As a means of preventing theft from packages in the course of shipment, which is general the world over, a British industrial organization has recommended that parcels should be packed in wire netting in addition to the hoop from bands, rope and other means of securing them.

## Practice Changes

Physicians today are making use of ice-packs in the treatment of pneumonia and other pulmonary maladies, whereas 25 years ago hot applications were prescribed exclusively.

## Abe Martin

It's easy to tell whether a son looks like his father or mother, but the modern daughter doesn't look like anybody ever saw unless it's Pauline Hall or Della Fox. It seems 'as we're buying' too much service these days, and not enough of what we ask for.

## A High Bird

The condor soars higher than any other species of bird, spending nine-tenths of its existence at a distance of more than three miles above the surface of the earth.

## FIND SKULL OF A YOUTH DROWNED AT MAUSTON IN 1917

Mysterious Disappearance of Carl Tribke, Who Fell Through Ice Is Solved

TOMAH, Wis.—Word comes to this city from Mauston of the solving of a tragic mystery on July 10. While wading in the Wisconsin river, Mrs. William Gardner found a human skull in the sand and recalled that on January 17, 1917, Carl Tribke, son of George Tribke of Chicago, was drowned about thirty rods above this point in the river. The father of the drowned youth was immediately notified of the finding of the skull, and came on from Chicago. The father positively identified the skull as being that of his son, the peculiar formation of the teeth being the key to the solution of the mystery. Portions of the bones of the drowned had been also found, and skull and bones were turned in to Mauston coroners, Chicago. It is a matter of history that on January 17, 1917, Carl Tribke was drowned while attempting to cross the Wisconsin river on the ice, his father drove his team across with a load of wood. To the surprise of the older man, his son suddenly disappeared from view, and his footprints were traced to an article in the ice. Every effort to locate the whereabouts of the lost son had for nearly 4 years failed. The positive knowledge of his drowning, is a relief to his father who has searched patiently for a solution of the mystery.

Mrs. C. C. Hamilton, executive of the Wisconsin League of Women Voters addressed the Mauston league on this topic. Miss Georgia Foster of Sparta, candidate for register of deeds for Monroe county also spoke to the local league.

### MONROE COUNTY LEADS BUTTER PRODUCTION

TOMAH. Recent reports show that Monroe county is the leading butter producing county in Wisconsin. During the past year its output totaled \$2,000,000 pounds, valued at \$2,000,000. Furthermore, several of the largest ranches of the world are located in the county. In a four mile section by part of the county, the farms of 200 farmers belonging to cow leasing associations were visited. Two thousand six hundred cows, either Guernsey, Holstein or Jersey were located and tested. The largest herd tested has an average record of 320 pounds of butterfat. The top cow has an average of 417.2 of butterfat and a production of more than 11,000 pounds of milk. Farmers from every part of the United States visit Monroe county each year and purchase foundation herds of pure bred cattle. Citizens of the county are realizing that the fundamental reason for its prosperity, is its fine dairy herds.

### ORGANIZE NATIONAL FARM LOAN ASSOCIATION

TOMAH. W. S. Arnold of Eau Claire, government auditor for the Federal Land Bank of St. Paul, recently assisted in the organization of a branch of the National Farm Loan Association at Mauston and covering Juneau county. The association organized on July 17 with a membership of 17 progressive farmers. Officers chosen for the year are Vernon Christensen of New Lisbon, president; W. H. Sullivan of Ladino, vice president; C. W. Barney of Mauston, secretary; treasurer, Earl Jones also encouraged by the new organization.

### Merely An Armistice

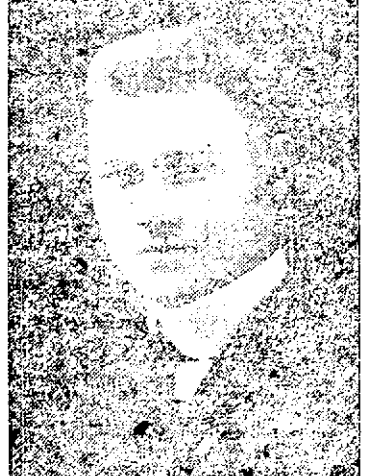

Nurse—"You must forgive your little brother before you go to bed. You might die in the night."

Booby—"Indubitably." "Well, I'll forgive him tonight but if I don't die he'll better look out in the morning."—Boston Evening Transcript.

### Beauty-Hint For Today

Before going out cleanse the skin with lukewarm water. Then apply a little lemon juice and you will have a complexion as beautiful as a rose. This combination beautifies when everything else fails. Overlooked the skin, it is a woman's greatest possession. Try it today. If you don't like it, take it back and get your money. At your counters everywhere.

Authorized and sold by R. J. Collins, 117 Vine St., La Crosse, Wis.

**ROY J. COLLINS**

Democratic Candidate for

**SHERIFF**

PRIMARY SEPT. 5, 1922

## CANDIDATES CARRY POLITICAL ISSUES TO BATTLEFIELDS OF CENTRAL AND WEST WISCONSIN

MADISON, Wis.—The political battle ground in Wisconsin during this week will be located in the central and central western counties of the state, where candidates for all state offices will carry their campaigns.

The two candidates for the United States senate, Senator Robert M. La Follette and Dr. W. A. Gaillard, will wage their campaign along the lake shore, Senator La Follette speaking in Calumet and Manitowish counties and Dr. Gaillard in Lake and Shawano counties.

White Attorney General William J. Morgan is swinging down from the north into the central counties, Governor Elmer, his opponent for nomination as governor will commence at Milwaukee and on Wednesday take his campaign into the central counties.

Bernard Ekern, candidate for attorney general on the La Follette progressive republican ticket, and John Baker, his opponent on the independent republican ticket, will both campaign through the interior sections.

Following are the itineraries of the candidates:

### SENATOR LA FOLLETTE—

Monday—Calumet county; New Holston, Ch. Falls; Tuesday—Brillion, Manitowish; Wednesday—Two Rivers, Denmark (Brown county).

### ATTORNEY GENERAL MORGAN—

Monday—Wittenberg, Elmdale, Benarwood, Madison, Antigo; Tuesday—Camden, Eagle River, Rhineland; Wednesday—Tomahawk, Merrill, Rockland, Wisconsin Rapids; Thursday—Stevens Point, Wisconsin Rapids; Friday—Camp Douglas, Saturday—Tomah, New Lisbon, Mauston, Elroy.

### GOVERNOR ELMER—

Monday and Tuesday—Milwaukee; Wednesday—Eau Claire county, Pabst, Chippewa Falls, Cross Creek, Altona, Eau Claire; Thursday—Camp Douglas; Friday—Chippewa county; Saturday—Cotton, Cornish, Holcomb, Bloomer, Chippewa Falls.

### BERNARD EKERN—

## Out in Society

**MISS FLORENCE Moore**, daughter of Mr. and Mrs. C. M. Moore, and Mr. Thomas Toole were quietly united in marriage on Saturday afternoon at 4 o'clock at the home of the bride's parents, 765 South Fifth street. Rev. W. S. Stewart, pastor of the First Baptist church, performed the ceremony. The couple was attended by Miss Madeline Lee as bridesmaid and Mr. Ellsworth Moore, brother of the bride, was the best man.

Following the ceremony a wedding dinner was served to the immediate relatives of the bride and her bridesmaid. The bride wore a gown of champagne Canton Crepe and carried a bouquet of Ophelia roses. The bridesmaid was also attired in Canton Crepe of periwinkle blue and her bouquet was a corsage of sweet peas. Mr. and Mrs. Toole left for Dubuque, where they will make their home.

Among some of the pre-nuptial affairs given for the bride were a silver service by Mrs. Boyd Collins, and a pair of white Mrs. J. R. Davis contributed, when the bride-elect was presented with a silver service tray.

**MISS GRACE KINNE** of La Jolla, Calif., has arrived for a visit with her sister, Mrs. E. W. Parker, 123 South Eighth street. She will remain until the first of September.

**INVITATIONS** were issued Monday by Mrs. A. R. Baldwin and Mrs. Louis C. Hirschman for an afternoon bridge at the Country club on Friday.

**MRS. F. B. WEEKS** and family of Boston are visiting at the home of Mrs. Weeks' sister, Mrs. J. E. Stokes, 1424 Kate street.

**MISS ROSALINE Dushik** has gone to St. Paul, where she will spend a few weeks at the home of her sister, Mrs. E. C. Strupka.

**DR. A. J. NOETZEL** of Milwaukee arrived Saturday morning, making the trip in his car, to join his parents, Mr. and Mrs. E. J. Noetzel, also of Milwaukee, who have been guests at the home of Mrs. Noetzel's sister, Mrs. J. E. Stokes.

**MR. AND MRS. T. P. OWYEN** and family left Monday morning to motor to Rochester, Minn., expecting to return Monday night, when they will be accompanied by Miss Catherine Mander, who will remain for a month's visit.

**MR. AND MRS. RAY HIRSH** and family of Milwaukee motored to the city Saturday and are guests for a few days of relatives and friends.

**THE WEBSTER** Home Makers club will meet at the home of Mrs. J. E. Stokes, 1234 Park Avenue, Tuesday afternoon at 2:30.

**THE LADIES' Auxiliary** of the United Spanish War Veterans will meet with the committee Tuesday evening in its rooms at the court house to celebrate the birthdates of some of the ladies. All members are asked to make a special effort to attend.

## STRICT ENFORCEMENT OF SEVERSON LAW IS ASKED BY DRY AGENT

Smith Calls Particular Attention to Clause Prohibiting Standing Bars

MADISON, Wis.—Enforcement of the provision of the Severson prohibition act which prohibits maintenance of a standing bar in licensed places of Wisconsin is asked of district attorneys Monday in a letter sent to them by W. Stanley Smith, prohibition commissioner. The validity of the law having been sustained by the supreme court, Mr. Smith says that active co-operation is requested to secure its enforcement.

There must be, the prohibition commissioner says, until this section of the statute was finally upheld, active enforcement of the provision was not undertaken by the commissioner, but now that the supreme court has declared the law in this regard constitutional, the commissioner intends to see that it is carried out.

In many sections of the state, standing bars have been remodeled to conform with the intent of the law, while in other places the old bars remain standing. A drive will be made against them in order to remove what the prohibition officers regard as an obstacle in the way of efficient enforcement.

Saloon men say that removal of bars will result in a prompt loss of hundreds of thousands of dollars. They prohibit, however, drinking before bars, or their maintenance and in the opinion of the supreme court they must be removed regardless of the loss entailed.

## Public Debate

MR. EKERN COMES CLEAN

Mr. A. M. Braxton, Editor, La Crosse Tribune, La Crosse, Wisconsin.

My Dear Mr. Braxton:

I have just obtained a copy of your issue of the La Crosse Tribune containing a report of my speech at La Crosse on Wednesday, July 12. When I saw a copy of your issue of July 12, at Virgo, which contained no reference to this meeting, I commented upon it in my speech. Evidently, this was an error of judgment and possibly the result of the meeting was carried in the early edition sent to Virgo.

I have recognized that the comment which I made without knowledge of the fact that you issued a subsequent edition was unjustifiable and I wish to acknowledge your fair treatment in the way of publicity. I am sending copies of this to the Virgo papers to correct, as far as I may, any mis-

apprehension from any comment I may have made there.

Very truly yours,

HERMAN L. EKERN.

Chinese physicians, in the absence of drugs, write and burn prescriptions giving the ashes to the patient.

## CULBERTSON DROPS BEHIND IN RACE FOR NOMINATION

Mayfield Leads Over Texas Senator by Thirty-three Thousand Votes

DALLAS, Texas.—General interest in the outcome of the first democratic primary election held last Saturday narrowed down Monday to the question of an opponent for Congressman Thomas L. Blanton in the second "run-off" primary Aug. 26. Representative Blanton had 9,880 votes, with half the total unofficial vote of the state counted from practically all 250 counties. Former Congressman Oscar Callaway had 8,921 votes; W. J. Cunningham, 3,269 and J. B. DiBrell 3,208.

U. S. Senator Charles A. Culbertson was 33,000 votes behind Earl B. Mayfield, who was holding his lead of 24,000 over James E. Ferguson.

Gov. Pat M. Neff, with 32,000 lead, is assured renomination.

**Don't be Satisfied**

Sad is the day for any man when he becomes absolutely satisfied with life he is living, the thoughts that he is thinking and the deeds that he is doing; when there ceases to be forever hunting at the doors of his soul a desire to do something larger which he feels and knows he was meant and intended to do.—Phillips Brooks.

The Egyptians sometimes used stones 20 feet in length in their masonry.

## DEAF ARE MADE

GARVAN DEFENDED BY UNDERWOOD IN SPEECH IN SENATE

Alabama Senator Criticizes Government for Action Against Chemical Foundation

WASHINGTON.—The Chemical foundation and its president, Frances P. Garvan, former alien property custodian, who are being proceeded against by the government for the return of German chemical patents, were defended in the senate Monday by Senator Underwood of Alabama, democratic leader, who criticized President Harding and the administration for the action taken against them.

Denying that there was fraud, collusion or conspiracy in the acquisition of the German patents by the chemical foundation, Senator Underwood also commended the record of A. Mitchell Palmer, former attorney general and former property custodian, in dealing with enemy alien property. German interests, Senator Underwood said, were supporting the administration's course against the chemical foundation in the hope, he said, of securing restitution of property and also damage claims for its use.

Senator Underwood's statements were made during an address in support of his recent bill to create an American commission to press American damage claims against Germany and Austria using enemy alien property seized as a pledge for payment. Mr. Underwood opposed the administration plan for a joint claims commission or another treaty to deal with the claims, declaring there was no necessity for further negotiations with Germany on the subject. He reviewed at length the alien property legislation and cited figures showing that property worth \$600,000,000 was taken over and control secured of 200 alien corporations.

Quoting from Mr. Palmer's report on enemy alien property Senator Underwood said that the \$250,000 paid by the chemical foundation in securing rights to the 5,000 German chemical patents was "adequate" when the government's right to use the patents was considered.

UNIVERSITY EXPERT OFFERS PLAN FOR GRADING POULTRY

OSHKOSH, Wis.—At the first session Sunday of a two day convention of the Wisconsin Poultry breeders association, H. W. Lachle of the department of markets of the University of Wisconsin, in an address to about 300 delegates, outlined a plan to grade, classify and standardize poultry and eggs on a basis similar to that in force for dairy products. He also advocated action to protect American consumers from the imported frozen and dried eggs shipped in from China and used by some bakeries. They sell at a low price due to China's cheap labor, he said, and he advocated a high tariff on them to keep them out. The convention was opened by the president, A. H. Laabs, of this city.

John F. Marvin, president of the Milwaukee association, took charge as chairman. An address of welcome was given by Mayor A. C. McHenry. In the morning at 9:30 o'clock several carrier pigeons were liberated sending greetings to the mayor of Milwaukee. A banquet was held last night. Today F. L. Platt of Chicago was to speak on "Breeding Standard Poultry."

QUIET WEEK END MARKS CONDITION OF STRIKE HERE

Conditions remained as quiet and uneventful over the week end in local strike circles as they have since the men left their jobs on July 1. The eight young men brought down from Peppin by the Burlington railroad to work in the car repair department at Grand Crossing are all reported to have left their jobs and returned to their homes. Several of the number brought in Friday night from southern Illinois are said to be ready to leave, according to union sources.

TEXAS PROHIBITION OFFICER HELD ON CHARGE OF MURDER

BEAUMONT, Tex.—M. T. Gonzales, prohibition agent from Dallas, will be given a preliminary hearing Tuesday on a charge of murder filed in justice court in connection with the fatal shooting Saturday night of H. W. Showers, a justice of the peace. Gonzales is being detained. He surrendered to police immediately after the shooting and declared he shot in self defense when justice Showers resisted arrest while prohibition officers attempted to take a bottle of liquor from his automobile.

REAL ESTATE TRANSFERS

REL ESTATE TRS

MEMBERS OF CHAMBER OF COMMERCE PICNIC AT CASHTON ON SUNDAY

First of Acquaintance Tours is Huge Success; Part of Party Side-tracked

The first of the Chamber of Commerce acquaintance tours and get-together picnics was held Sunday afternoon, when several of the members motored to Cashton where they were entertained with music by the Cashton band and special program. A picnic supper was served at five o'clock. The affair was sponsored by the Sacred Heart Catholic church of Cashton.

The affair was said by those attending to be a huge success, being very well attended. According to reports, 1200 people were served at the picnic supper.

Part of the party intending to attend the picnic Sunday afternoon were side-tracked through a misunderstanding. Some of the cars went to Chasaburg, and others ended up at the Daughters of Norway picnic at Bommer's Mill.

FIRST OIL FROM NEW FIELD PASSES THROUGH THE CITY

The first oil train from the new fields at Winnett, Montana, passed through the city over the Chicago, Milwaukee and St. Paul railroad at 12:15 Monday morning. The train was in charge of Conductor George Keys.

Milwaukee road officials at the north side offices stated that two trains, composed of 50 cars, will pass through the city each week. The cargo is crude oil from the new fields at Winnett, Montana, en route to Whiting, Indiana. A regular schedule for the empty and loaded cars, in either direction, has been arranged.

FOLK SONG

Other lads, their ways are daring;  
Other lads, they're not afraid;  
Other lads, they show their caring;  
Other lads, they know a maid.  
Wiser lads than ever you were,  
Wiser lads with never a hint of fear,  
Robin's knicker and tunic—  
Why should I love you the best?

Other lads, their eyes are bolder,  
Nearer they are, and stronger and stiffer,  
Nod is straight and broad of shoulder,  
Shoulder has a way with him.  
David stands a head above you,  
He's a true and a faithful one,  
Why, as when, then should I love you?  
Naturally, I do not.

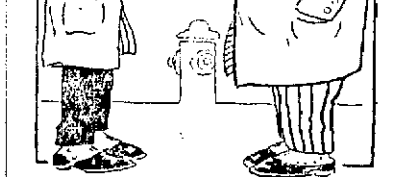

— Dorothy Parker in Life.

Climbed Into the Elephant's Bodies

Some distinguished Englishmen engaged in an elephant hunt in the Sudan. Upon a day on which five elephants were killed, the natives came from far and near to feast on the savory carcasses—continually growing more savory under the tropical sun, actually getting inside the bodies of the great beasts, as it were, from within the whale, and so eating from the inside a horrible spectacle!

Keeping it Quiet

Still we have never heard how much money the non-partisan league spent to elect Blaine. What's the secret? It might make Newberry look like a tin-horn.—Janesville Gazette.

RUSSELL VAN HOOK

Home Brew  
First Bachelor. Some people seem to find matrimony very stimulating.  
Second Bachelor.—Something brewing all the time, I suppose.

Stabbing

Titsuzi Sakiuchi, Japanese cook, is held by Philadelphia police charged with repeatedly stabbing with an ice-pick his mistress, Mrs. Lewis Beinton, wife of a prominent physician, in a dispute over domestic matters. Miss Elizabeth Brington, 18 (above), rushed to her mother's aid.

DEFINITE MOVE BY PRESIDENT LOOKED FOR

(Continued from page one)  
Discuss formation of "company" unions on all roads to succeed the six striking crafts which are affiliated with the American Federation of Labor.

No Strike of Station Agents

CHICAGO.—By The Associated Press.—The ten thousand unionized railroad station agents will not be called out on strike, W. J. Noone, president of the organization, announced Monday after a conference with W. L. McMenimen, labor member of the labor board.

"I will instruct my men to remain at work and order that committees confer with the road managements over all points at issue," he said.

Davis Non-committal

WASHINGTON.—Secretary of Labor returned to Washington Monday from his trip to Monmouth, Ill., but said he had nothing to add to his statement made there with reference to his conference with W. L. McMenimen member of the labor group of the railroad labor board and H. M. Jowell and other strike leaders.

Avert Trouble in Birmingham

BIRMINGHAM, Ala.—When police answered a riot call at the Louisville and Nashville railroad shops at Boyles early Monday morning they found a crowd of approximately 250 men, women and children, armed with sticks, and a mighty snave spokesman. They were waiting for a work train taking workmen into the shops.

"What's the trouble, boys," Chief of Police McDuff called, piling out of an automobile.

"We're just plain, simple country folk who want to see the train go by," the leader of the crowd replied. "That all right?"

"Fine," said the chief. "We want to see it, too."

So they all watched the train go by. There was no disorder.

COLONEL GUTHRIE DEAD

PITTSBURGH, Pa.—Colonel Robert W. Guthrie, prominent in business life of Pittsburgh and for a time democratic national committeeman from Pennsylvania, died at his home here Monday aged 70 years. Colonel Guthrie was a brother of the late George Guthrie, who died in Japan while American ambassador to that country.

Banding Together

According to the London postoffice directory, the English metropolis has 3,000 associations, mission orders, alliances, leagues, societies, unions, funds and bands.

M'CARTNEY'S AUTO HIT AT COON VALLEY OTHER CAR UPSETS

North Side Man's Machine is "Sideswiped" by Another Car That Later is Ditched

W. J. McCartney, chiropractor, 1321 Charles street, who with several others, was returning from a meeting of the Western Wisconsin District Association of Chiropractors at Virgo on Sunday, had a narrow escape when his automobile was "sideswiped" by another car, near Coon Valley. The other car, which was being driven at a high rate of speed, ran into the ditch and upset. The occupants, mere boys, escaping injury. With the assistance of six men, Mr. McCartney was able to pull his car back on the road, changed tires and proceeded home.

In speaking of the accident, Mr. McCartney said:

"About two miles outside of Coon Valley I noticed a car coming down the road at 'breakneck speed' and I turned well out of the way to avoid it. I turned so far off that all that saved me from going into the ditch was a strong barbed wire fence. The other car, sideswiped me, denting my rear mud guard, puncturing a tire and tore the cap off the hub of my rear wheel.

"Now, here is the queerest part of the whole thing: I got out of my car to see what damage was done—as the other car did not stop right away. I walked back to see if I could find the cap—also possibly a place where I could phone to La Crosse for assistance. About a third of a mile down the road, were the other fellows overturned, and completely into the ditch. They were both so drunk they could hardly stand up. They were the boys who had sideswiped me. How in the world they had ever escaped very serious injury is beyond me. I have always tried to think that I am a fairly careful driver—but what can one do with such fools on the road."

LEGALITY OF PLAN O. K'D BY DAUGHERTY

(Continued from page one)  
In the efforts to prevent advancing fuel charges during the emergency of the present situation.

Later the department of justice announced that Attorney General Daugherty had submitted an opinion to Secretary Hoover "sustaining every phase" regarding the legality of the commerce secretary's plan "in connection with the coal shortage and distribution."

Daugherty Upholds Plan

"While the merits of the plan were not particularly submitted to me for consideration," the attorney general's statement said, "yet I desire to say that it is most comprehensive and in my judgment practically, and I am sure Secretary Hoover, because of his vast experience and capabilities and with the co-operation of other governmental agencies, will be most effective in carrying out the president's plans and policies for the material relief of the public in the present emergency."

The attorney general declared that he would join with Secretary Hoover "and every other governmental agency under direction of the president, to relieve the situation to the end that coal and other necessities of life may be furnished the American people in sufficient quantities and at reasonable prices."

Meet at Hoover Call

The bituminous operators met at Washington at the call of Secretary Hoover to consider the cooperation with the government and the railroads in a coal distribution scheme designed to protect the carriers and necessary industries against a shortage and to prevent profiteering. As thrashed out Sunday, the plan contemplates the creation of a central committee with representatives, it is understood, from the departments of commerce, justice and interior and the interstate commerce commission, operating through local committees in the producing districts of Kentucky, West Virginia, Tennessee, Kentucky, Pennsylvania and Alabama. Coal distribution, it is planned, will be controlled through pooling in the various producing districts and the distribution of cars under a preferential system to be instituted under authority of the interstate commerce commission.

Rate Board Has Authority

While the plan is designed to operate effectively through co-operation of the operators and railroads, it is founded on the authority of the interstate commerce commission to act in emergency on behalf of interstate commerce.

It is by this authority, it was explained, that the commission would be able to control conditions both as to distribution and price levels should the co-operative effort in any district fall short.

Postpone Michigan Parley

DETROIT.—The conference scheduled for Thursday between George Groesbeck and T. Leo Jones, president of District 24, United Mine Workers of America to consider steps toward bringing about resumption of operations in Michigan coal mines, will not be held until Tuesday, the governor announced. The postponement was at the request of Mr. Jones, who advised the governor he would be unable to meet with him Monday.

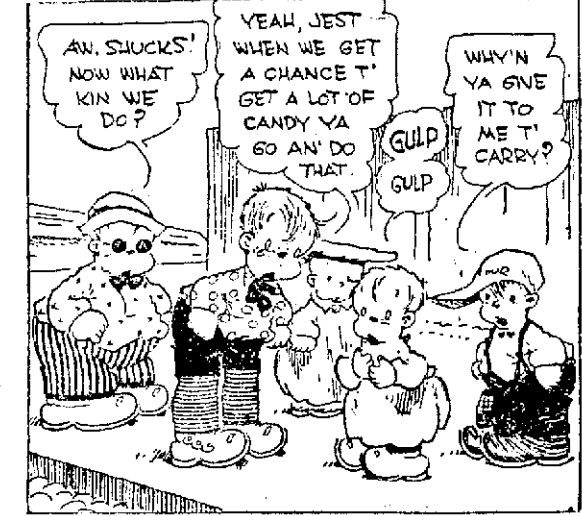

The governor announced that pending the conference with the union head he would withhold any further move toward reopening the mines.

Pumpman Reported Quitting

BELLEVILLE, O.—Pumpman and fan men on duty in the coal mines in this vicinity were reported leaving their posts Monday as a protest against the bringing of state troops into the district.

There are approximately 175 mines in this territory and at the beginning of the coal strike one pumpman and one fan man were kept on duty at

FRECKLES

THE DUFFS

TAX RETURNS ARE DUE ON JULY 31

July 31st is the last day for corporations to file their capital stock returns. It is also the last day to file special tax returns on pleasure boats, passenger automobiles for hire, oleomargarine and other special taxes.

Those who fail to file their returns will be subject to the penalties provided by the law. Returns may be filed in Room 10, Federal building.

Public Debate

PASSING THE TARIFF DOWN  
To The Public:  
Telegram sent to Senator I. L. Lenroot is as follows: "What is the present emergency tariff on raw or scoured wool?"

Senator Lenroot's reply is: "Fifteen cents raw, forty-five cents scoured." (Signed) I. L. Lenroot.

We have been paying a tariff of 45c per pound on scoured wool for over a year, and the proposed new tariff of 35c per pound on scoured wool will be a reduction of 12c per pound.

If this tariff became a law, and using the merchants figures as a basis, we will all be buying our clothing at a reduction of \$2.00 per suit.

"How come?" Mr. Boehm, manager of the Continental Clothing Co., FRANK E. SMITH, 1522 Main.

OBITUARY

FRANK HODOUS  
Frank Hodous 75 years old, 1219 South Eleventh street, died at a local hospital Monday morning. Mr. Hodous leaves 12 children, seven daughters and five sons. Funeral arrangements will be announced later.

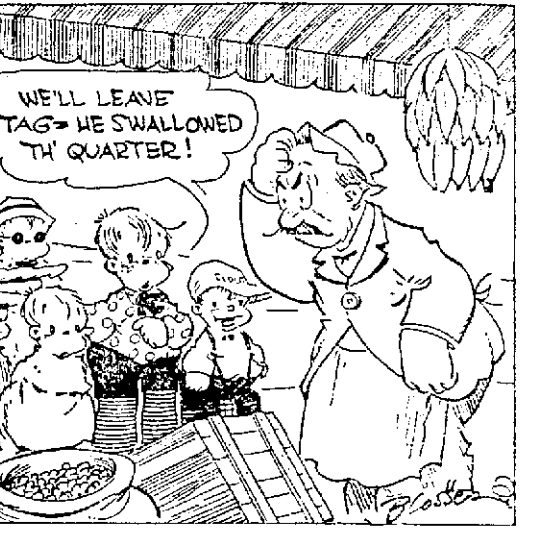

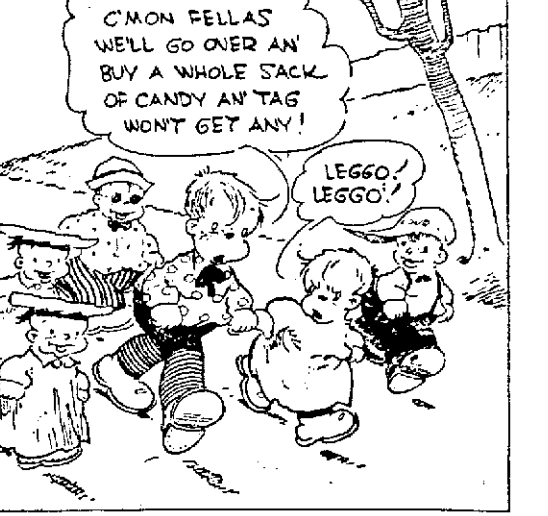

ECONOMICS EXPERT DEAD

PHILADELPHIA.—Dr. Simon N. Patten, for many years head of the department of political economy at the University of Pennsylvania and well known as an authority in the field of economics and social science, died at Brown's Mills, N. J. Monday after a long illness. He was 70 years old.

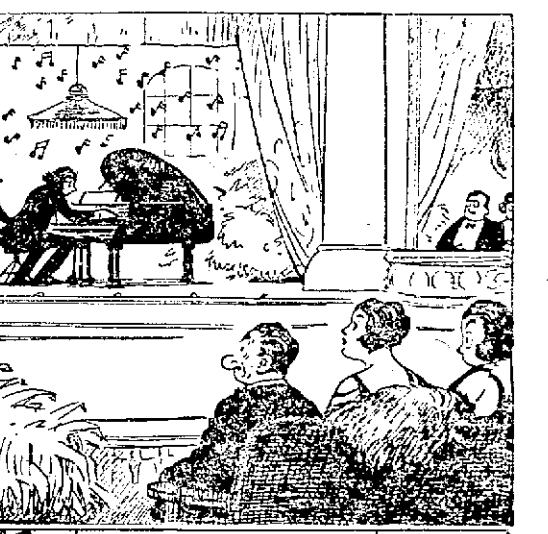

REGULATE CARNIVALS

DEBRIQUE Iowa.—As the result of a special ordinance passed by the city council, carnivals, circuses, aggregations or anything in the amusement lines, are to be barred from showing in Dubuque in the future unless they can find locations over 250 feet away from any residence property.

GOOD SECURITY

HE DIDN'T GET A RISE OUT OF TOM

VICTORY OVER CHEN FORCES NEAR CANTON CLAIMED BY DR. SUN

Engagement Important and Few Prisoners Taken, Counter Claim of General Chen

CANTON.—By The Associated Press.—Sun Yat Sen, deposed president of the South China republic, announced Monday that his forces had captured several hundred troops of Chen Chiung Ming in the vicinity of Ying Tak, about 60 miles north of Canton. At Chen's headquarters, however, it was asserted that the engagement was unimportant and that only a few of Chen's soldiers had been captured.

Sun Yat Sen appeared optimistic, predicting that he would be re-established soon as head of the Canton government—the position from which he was driven by an army subordinate to Chen Chiung Ming.

Gambling has been resumed throughout Canton and Sun declared that gamblers were paying Chen's soldiers more than \$11,000 a day for this privilege.

MOTORCYCLE OFFICER KILLED

OSHKOSH, Wis.—George O'Connor, motorcycle officer of the Oshkosh police department, died Sunday night at a local hospital from injuries received when he was run over and dragged by an automobile in a collision at a street corner. The driver of the automobile was George Tiffany of this city, and he was taken into custody pending a verdict by the coroner's jury. Witnesses claimed neither the auto nor the motorcycle were traveling at excessive speed.

Here's a Punch

He called his home "Ballet Girl!" And thought the name quite slick. The reason you can quickly guess—Because it had a kick! —American Legion Weekly.

National Parks Popular

The use of the national parks of this country in 1924 exceeded all records. They were visited by 1,171,797 persons, as compared with 356,007 visitors in 1916.

Prior to 1848 the United States had very little gold coin.

## UNEMPLOYED ARMY IN WISCONSIN IS REPORTED SMALLER

### Industrial Commission Report Indicates Increased Employ- ment in Nearly Every Line

MADISON, Wis.—Increased employment in practically every line is shown by report conditions in June, the date for which has just been compiled by the industrial commission.

In stone and allied industries, metal working, wood working and construction work gains are shown throughout. The leather working industry shows gain except for the tanning. Pulp and paper mills of the paper production show gains, while box manufacturing and other paper products show decreases.

Hosiery and knit goods show decreases, the balance of the clothing industry showing gains. Flour mills were on the decrease list, while meat packing, milk products and canning increases.

During the month 12,340 placements were made by employment offices. Building and construction work, lumbering, metal and machine work and transportation took on the most men. In general, little unemployment is reported among the skilled workers. Crop outlook and approaching harvest has strengthened demand for farm help.

### IN THE MORNING PAPERS A Summary of the News

PARIS.—An international congress organized by Boy Scouts opened at Sarthe on Sunday with Sir Robert Baden-Powell presiding.

NEW YORK.—Twenty American bankers left for Montreal where financial and commercial arrangements will be discussed with Canadian bankers, this week.

NEW YORK.—Establishment of a better business bureau to improve protection for investors was announced by David F. Houston, former secretary of the treasury, who will be president of the bureau.

DARMSTADT, Germany.—The opening gun of a campaign for a "dry Germany" was fired by a committee of prominent persons.

Smoke When Hungry.—The women of Canada make the excuse for their general adoption of the smoking habit that they puff a cigarette as a relief to hunger.

## In The MOVIES

### FAMILY NIGHT AT THE RIVOLI AND MAJESTIC

Father, Mother, are you all set for tonight? You haven't forgotten have you, that tonight is family night at the Rivoli and Majestic theaters? With one admission by either father or mother the entire family is admitted. It's a great chance to give the family a real treat. And that isn't all. There is to be a real prize for the largest family in attendance. McCord and Co., the Rexall store, will donate to the largest family present, a toilet set. The Rexall Drug store has also made arrangements to give away 200 treats to the first 200 persons buying tickets. Now don't forget to ask for your treat when you buy our ticket.

#### MAJESTIC TODAY

Are you married, have you been married, or are you in that happy hazy state of mind anticipatory of marriage? Whoever our case, there's something for you in "Too Much Wife," the feature picture in which Wanda Hawley is starred. It opens at the Majestic Theater.

For in this comedy of present-day life, thanks to the humorous insight of Lorna Moon, the author, and Percy Heath, the scenarist, many of the ups and downs of the marriage relation are shown.

Miss Hawley and T. Roy Barnes represent, at the beginning, the "ill-and-on" state of pre-marital bliss. This is quickly succeeded by the honeymoon state. For reasons to their own condition, Arthur Hoot and Lillian Langdon play a long married couple, a union in which the husband is entirely under the thumb of his shrewish wife, with only enough spirit left to squirm occasionally.

#### RIVOLI TODAY

A mystery photoplay that is really a mystery until almost the very end was revealed last night at the Rivoli Theater where "Find the Woman" began a run of two days. In this picture featuring Alma Rubens there is presented the most engrossing murder story ever filmed.

If you go in for thrills, adventure and tense situations you will have a treat at this picture, which was splendidly directed by Tom Terriss. The story is built about the murder of a well-known theatrical agent.

A woman is known to have been in his office and that woman is sought. A series of extraordinary complications that made the pulse leap.

#### RIVIERA TODAY

An all-star cast, including some of the best known names in filmdom, presents L. J. Gasnier's production of "Silent Years" scheduled for screening at the Riviera Theater today.

The secret of the remarkable cast has been explained by Mr. Gasnier who took particular pains to assemble one of the most exceptional groups of film players for this unusual story of life in the St. Lawrence river region. Many months ago R-C Pictures purchased Harriet T. Comstock's widely read novel and decided that Gasnier was the man to produce it. He read the book and immediately wired the officials of the R-C studios Hollywood to comb the entire Pacific Coast while he did the same in New York for the very best available types for the production.

Here they are: Rose Dione, Tully Marshall, George McDaniel, George Seaman, Will Hutton, Jack Mower, James Barrows, Jack Livingston, Ruth King, Kate Tonery, Lillian Lamborn, Jean O'Rourke, Pauline Starke and Rush Ashby.

#### STRAND TODAY

An Indian village in the heart of the frozen wilderness in Alaska, is the setting for Jack London's great story "The Son of the Wolf," a vi-

vid picturization of which will be shown at the Strand Theater today. Not only is the production founded on the famous author's novel "The Son of the Wolf" but parts of his "The Wife of a King" have also been merged into the tale, the filming of which, by Norman Dawn, is being hailed the country over as one of London's most gripping narratives. In the cast are such noted players as Edith Roberts, Wheeler Colman, Sam Allen, Ashley Cooper, Fred Kohler, Thomas Jefferson, Fred Stanton, Arthur Jassine and others. Included in the big cast are a clan of Indians from the snow lands who add much to the general atmosphere of the production.

#### CASINO TODAY

How Babe Ruth's dream of becoming the greatest hitter is materializing and how he makes a friend of every person who frowned on him tend to give "Headin' Home" a conclusion that is wholesomely entertaining.

# FARM BUREAU AND COUNTY AGENT WORK FOR T. B. AREA TEST

## GREAT EFFORTS MADE TO CHECK TUBERCULOSIS

La Crosse County Farm Bureau and County Agent's Office Combine to Carry on Work

FARMERS CIRCULATE PETITION ASKING FOR T. B. TEST HERE

Care in Buying and Selling of Cattle Being Urged

PROBABLY no disease affecting either the human race or livestock is better known or has been the object of so much study as tuberculosis. Present knowledge of the disease is derived from many sources, including the work of eminent scientists who discovered its cause and studies of the numerous ways in which it is spread, the manner by which man and animal contract it, and the effects it produces.

The tuberculin test is the means of detecting the disease in animals, so they may be disposed of (slaughtered) to prevent their spreading the disease.

It is a known fact that T. B. spreads from a diseased herd to a healthy one.

T. B. may be introduced into a healthy herd by any of the following means:

By the addition of an animal that is affected with the disease.

By feeding calves with milk or other dairy products from tuberculous cows.

By watering cattle at the common watering trough as is often the practice at fairs, stockyards, etc.

By community pastures, or where cattle reach their head through the fence and in that way mingle with the neighbors' herd.

During the last six months, according to figures presented to the senate appropriation committee on total number of cattle tested, 3.6 per cent were reactors.

Transmitted to Swine

Bovine tuberculosis is very readily transmitted to swine. Federal meat inspection figures on the number of hogs coming into the market infected with tuberculosis shows a heavy increase. In 1908 it was only 2 per cent and in 1921 it was 12.4 per cent.

The records show that the northern markets show a heavier percentage of infection and condemnations with Milwaukee leading in the highest percentage of infected hogs, 27.75 per cent.

As we leave the dairy districts going into the corn states, the decrease in percentage is appreciable. Indianapolis being slightly above 4 per cent. Indianapolis is being recognized as a buying center for buyers from the Atlantic seaboard, slaughter hogs commanding a better price.

It is a well known fact and now admitted by the packers that they discriminate in prices against localities in which a large percentage of tuberculosis exists. In livestock, the packers find there is a spread of fifteen cents a hundred on the loss on hogs occasioned by tuberculosis throughout the United States.

Recently they agreed with the National Livestock Exchange to pay 10 cents a hundred pounds live weight additional above the market price for hogs coming from "Accredited" counties or territories.

This extra 10 cents per hundred live weight on all hogs sold from La Crosse county would add several thousand dollars to the annual income of the farmers in the county.

Elimination Important

The extirpation of tuberculosis from livestock is important not only from an economic standpoint but also because a considerable percentage of tuberculosis in the human family, especially among children, is positively due to the consumption of infected milk or other dairy products from tuberculous cows.

How to proceed to make certain that cattle and swine are free from tuberculosis: Have a competent veterinarian apply the tuberculin test. Remove all reactors promptly and disinfest the premises immediately after the removal of the reacting cattle.

Do not feed any infected dairy products to a swine or young cattle.

Repeat the herd with tuberculin or a year.

Help circulate the area test application blank to secure the signatures of at least 61 per cent of the 1,720 farmers in La Crosse county to secure the area test for the county. The area test means that all herds in the county would be tested as fast as force of veterinarians could do the work. The area test is handled by the federal and state division of livestock sanitation and is free to the farmers.

This is one of the most important projects that the farmers of La Crosse county have ever attempted and should go over 100 per cent.

Circulate Petition

By area test is meant that all herds or cattle in a given area such as school district, township or county be tested for tuberculosis. It is the aim of the farmers at this time to secure the area test for all of La Crosse county.

There are now nearly 200 herds in

## TOBACCO POOL FACTS

Seventy-five per cent (or more) of the acreage of Wisconsin 1922 crops will be sold by farmers collectively.

Aaron Sapiro, noted co-operative counsel, will help draft the warehouse and financial plans of operation.

One of the very best tobacco experts in the country will be hired to manage the grading and sales.

Bankers of Wisconsin will help finance the pool. Several independent warehouse managers have offered full capacity space to the growers. The federal bonded warehouse act will be used in issuing certificates.

Territories signing up to the greatest degree are those where the tobacco growers of the state reside. This will give the pool a "corner" on the best leaf for assorting.

Growers will not arbitrarily raise prices on the strength of their advantage, but the present year of medium low acreage and doubtful quality leaf will be favorable to success of the plan.

The state to be divided in 16 districts for the purpose of representation in the association. Government of the association will be strictly according to Wisconsin co-operative law.

First district sessions for election of directors will be held during the last week in July.

## FOUR MORE OF THE 1922 PIG CLUB WINNERS VISITED BY MERCHANT MEMBERS WEDNESDAY AFTERNOON

Not all the members of the pig club of the merchant's bureau of the Chamber of Commerce were able to make the trip around to the 1922 pig winners last Wednesday afternoon, but the few that did go were thoroughly interested in what they saw and were cordially received at the farms visited.

The first stop was made at the Sunshine poultry farm, just outside the south limits of the city. Theon Brades, whose father runs the farm, won a Duroc-Jersey pig in the contest this year, and with the excellent care he is giving it, the pig is doing well. Theon was not at home, but his father showed the pig to the visitors.

Next on the route was Roy Kramer who lives on the Mormon Coulee road a short distance north of Stephan's Inn. Roy was not to be found around

the place either, the burden of the entertaining falling on his younger sister. After a short visit the merchants drove on to the farm of John Meyer, in the upper end of Mormon Coulee. Arnold Meyer, the winner of the pig was at home but the pig was not to be seen. A considerable amount of coaxing on the part of Arnold and his sisters before it could be induced to consent to an interview. As in all of the other cases, the pig is developing splendidly with good care.

From Meyer's farm the merchants next went on to St. Joseph's bridge, where they stopped to see the pig won by Elmer Servis. Elmer's prize was rapidly developing into prize winning stock. From the Servis place, the tourists returned to the city. The next trip into the country will be made Wednesday, July 26th.

WORLD'S RECORD

TOMAH—The world's record weight calf was recently born on the farm of Ole Sherry Vernon county, and tipped the scales at one hundred seventy-five pounds. The heifer is a pure bred Holstein and has steadily gained two pounds in weight each day of its short but closely guarded life. The owner of this remarkable calf has refused many tempting offers in cash for his treasure, and asserts that no sum of money will buy the heifer. He challenges the world to show another calf so large or perfect as his treasure.

La Crosse county under federal and state supervision with a long list of farmers awaiting their turn to have their herds tested for tuberculosis. In addition to these a large number of farmers are having their herds tested by local veterinarians.

It is impossible to estimate in dollars and cents the value of knowing that all herds have been tested and free from this terrible disease.

Everyone interested in livestock or dairy products should be interested in securing the county-wide clean up.

In order to obtain the area test for the county it will be necessary to have the signatures of at least 61 per cent of the 1,720 farmers in the county.

The presence of tuberculosis lessens the meat supply and increases the cost and in other ways increases the cost of living. Our meat supply should be increased rather than decreased and thus reduce the cost of living.

Care in Buying Urged

It is impossible for a farmer or producer to have the best business he is capable of having if he unconsciously is handling diseased animals. When the farmer ships to the market the buyer who buys his stock knows that he must when placing a value upon the animals take into consideration the fact that a certain percentage of them are diseased and will be condemned upon post-mortem examination by the federal inspectors in packing plants. Therefore, he must buy accordingly until the disease is eliminated and ceases to be a factor for his consideration. He should be interested in the eradication of tuberculosis from the human phase as well as the economic.

NEARLY TWO MILLION CANS OF PEAS RECORD OF GALESVILLE PLANT

The Galesville Canning company plant is in the last week of operation. Nearly two million cans of peas are in the warehouses. All those must pass through the labeling machine before packed for final shipment. The peas will go to many distributing points between the Atlantic and the Pacific. The factory will contribute eighty carloads to the nation's supply of canned peas.

BEES KEEPERS MEET

The annual State Beekeepers' conference and field meet will be held at Green Bay, August 7 to 11, according to announcement by M. F. Hildebrand, secretary of the State Beekeepers' association. In addition to the many prominent beekeepers of Wisconsin, E. P. Phillips, Washington, D. C., and C. F. Demuth and E. R. Root of Madison, Ohio, and C. P. Judant, Hamilton, Ill., and M. P. Wilson of Madison, will appear on the program.

The meetings will be held at Bay Beach pavilion within easy reach of a splendid camping site. Reservations for room may be made by writing the secretary of the association. The Brown county association is making every preparation to give the beekeepers an enjoyable vacation.

Brazil furnishes the insect specimens of 10322.

At Spalato, a town of Dalmatia, exists a palace built before 200, and now used as a Christian cathedral.

He hums a couple of cheerful tunes. And pays the grocer for his prunes. The grocer, who has had the blues. Now buys his wife a pair of shoes. That ten the shoemaker thinks God sent. And runs and pays it on the rent. Next day the rent man hands the bill To Doctor Carver for a pill. And Doctor Carver tells his fiancée That business is improving now. And cheers her up and says: "My dear, You've been quite feeble for a year. I'm thinking you should have a rest. You'd better take a trip out west." And in a couple of days the fiancée Is on the farm of Joshua Howe. She pays her board to Farmer Howe. Who takes the bill and says, "I swear. Here's something that just can't be beat— This bill's the one I got for wheat." He hums a couple of cheerful tunes. And goes and buys a lot more prunes. —Rochester Dailings.

USE OF PURE BRED SIRES IS URGED BY NATIONAL INSTITUTE

Milk and Butter Fat Production Could be Almost Doubled

CHICAGO, Ill.—The milk and butter fat at present produced by the 23,000,000 dairy cows of the United States could be produced by 12,000,000 if only pure bred sires were at the head of each herd, according to a survey made public Saturday by the National Institute of Progressive Farming.

In Denmark, which has the most highly developed dairy industry in the world, the productiveness of cows is double that of the United States. It was stated.

The world's champion milk and butter fat cows are in this country, but less than three-quarters of a million of the 23,000,000 producing dairy cows are pure bred, the institute said. This accounts for the fact that our average production is only one-half that of Denmark and Holland.

Iowa Experiments

An illustration of the profit in the use of pure bred sires comes from Iowa college, according to the survey. In this instance the first cross breeding of native cows with pure bred Holstein-Friesians showed an increase of 83 per cent in milk and 58 per cent in butter fat. The second generation cows, which were three-quarters pure bred, showed an increase of 180 per cent in milk and 128 per cent in butter fat over the production of the original native cows. If this process were followed in all herds, the survey estimates that production would be about 46 pounds of butter per capita instead of 17 a year as at present, 8 or 9 pounds of cheese instead of 3.8, and 3 pints of milk daily instead of one.

The survey expressed the opinion that American farmers are progressing slowly but surely toward this standard, just as they are progressing in other ways, that is in the rotation and diversification of crops, greater use of fertilizer and the employment of tractors and other power machinery which saves time to be devoted to the greater care required by higher grades of livestock.

Dairy Farmer Leads

The dairy farmer, the survey shows, is a leader in progressive farming, and the prosperity of dairy territory is apparent to the passerby in the large number of automobiles to be seen, good condition of roads, and in thriving, brisk-looking villages and towns.

The survey finds that in communities where dairying is in its infancy, pure bred sires are often community-owned.

The northwest leads in the constructive dairying program. The greatest dairy show in the world is to be held at Minneapolis next October. In North and South Dakota, Iowa, Wisconsin and Minnesota, the survey reports that the state governments are actively behind the building of dairy herds. In the Dakotas there are big educational committees at work and the program has the support of bankers and business men generally.

Pure Bred Associations

Another encouraging aspect of the situation is found by the survey in reports by the pure bred associations. All over good business and it is stated that five shipments of Ayrshires were recently made collectively to Cost Rica, Hawaii, Mexico, China, and Japan. A greater number of Jerseys have been registered in the past year than any year in the history of the American Jersey Cattle college, with one exception. Registrations this year so far number 48,000. Breeders are looking forward to a tremendous demand with a return of prosperity to farms in the near future, it was stated.

TOWNSHIP MEETINGS OF TOBACCO GROWERS THURSDAY, JULY 17

MADISON, Wis.—Township meetings in the Wisconsin cooperative Tobacco Pool will take place on Thursday, July 27th according to an announcement here on Monday. Delegates chosen at the township meeting will attend the county meetings in the different meetings on July 31st. A state meeting will later be held at Madison sometime about Aug. 15. It is understood that upwards of 90 per cent of the Wisconsin Tobacco crop has now been pooled.

LONE MOUSE CAUSES DEATH OF 27 CATTLE

SPRINGFIELD, Wash.—One mouse caused the death of 27 cattle on the ranch of Robert Potts. The mouse became stuck in the pipe leading from a spring to the pasture watering trough. The animals died of thirst. Some of them crawled through the fence into another field in their desperate search.

POTATOES ENDANGERED

TOMAH—Central Wisconsin's early potato crop is again endangered by the appearance of the deadly "leaf hopper," which is attacking the vines and destroying life. Growers are making a strenuous effort to locate and kill this almost invisible pest.

# STATE TOBACCO POOL IS FINALLY SUCCESSFUL; ON KENTUCKY PLAN

COLLECT SHOW SAMPLES NOW

Now is the time to collect those samples of grain for those sheafs to be shown at the various fairs this fall and winter.

The quality of grain and straw is very good in this country this year and the prospects were never better for some excellent show samples such as will bring honor and credit to the county. Let's keep La Crosse county in the lead as a good grain county. Collect your samples of those good grains now.

INTEREST SHOWN IN GIRLS' AND BOYS' CLUB WORK AT FAIR

Special Premiums Offered to Stimulate Work of Boys and Girls

Plans for the big Inter-State Fair to be held at La Crosse beginning September 18th are rapidly being completed. Greater interest is being taken this year in the work of the various boy and girl clubs than ever before, several local business houses, the Wilson Packing company and the National Holstein-Friesian association contributing premiums to stimulate this work.

The following statements and premium lists were issued by the secretary of the Fair Association, Mr. C. S. Van Auker, Saturday morning:

Realizing the value and importance of boys' and girls' agricultural club work and believing that the future of our fair depends not only on serving the present day needs, but also the future generations, this division shall be exclusively for boys and girls of Minnesota, Iowa and Wisconsin tributary to La Crosse. We are therefore pleased to announce herewith the rules governing this department, the premium list, and the accommodations to be provided for their exhibits.

(Signed) JOHN P. SALZER, President. C. S. VAN AUKEK, Secretary.

The superintendent is P. A. Larson, La Crosse, Wis. His assistants are: P. C. Taft, Ames, Iowa; T. L. Bewick, Madison, Wis.; M. F. McNeown, Oshkosh, Wis.; C. C. Turner, Caledonia, Minn.; P. S. Dyer, Preston, Minn.; E. L. Liddle, Sparta, Wis.

Rules

1. Any boy or girl is eligible to compete in this department who is enrolled in a regular club or Smith-Hughes project.

2. All exhibits must be on the grounds and in its place before noon of Tuesday of fair week.

3. Calves and pigs exhibited in this department may also be shown in the open classes if desired.

4. Not more than two animals can be shown in the same class by the same exhibitor.

5. All exhibits must be the results of the labor of the person exhibiting. Proofs of this fact may be demanded and affidavits required.

6. Judges may disqualify unworthy exhibits.

7. The superintendent should be notified of prospective exhibitors at least one week before the opening of the fair in order to provide suitable accommodations.

Accommodations

1. Stalls will be furnished for calves and pens for pigs. Bedding will be free but feed must be furnished by the exhibitors.

2. This department will be housed under one roof as far as possible and suitable signs provided directing attention of the public to the same.

3. No entry fee will be charged.

4. Each exhibitor or demonstrator will be provided with a ticket or badge which will admit to the ground any time during this week. This is not transferable.

In order to stimulate interest in agriculture and breeding of pure bred live stock the following firms and banks of La Crosse are aiding the Inter-State Fair in the payment of premiums in this department.

Wilman Bros. Batavian National Bank. Wm. Doerflinger Co. La Crosse Tribune Co. La Crosse Clothing Co. State Bank of La Crosse. John A. Salzer Seed Co. La Crosse Lumber & Supply Co. Wisconsin Pearl Button Co. The W. R. Montague Co. V. Tausche Hardware Co. Hotel Linker. J. J. Hogan, Inc. The Continental Clothing Co. Miller-Rose Co. Hebbard Drug Store. John C. Burns. La Crosse Theatres Co. The E. R. Barron Co. L. C. Colman. W. A. Roosevelt Co. The National Bank of La Crosse.

List of Prizes

Beef Calf, any breed \$40.00 1st \$25.00 2nd \$15.00 3rd \$10.00 4th \$5.00

In addition to the above premiums, Wilson & Co., Packers and Provisioners, of Chicago, Ill., will pay up to \$40.00 to each of the above successful exhibitors toward expenses for attending the International Live Stock Show at Chicago, Ill., Dec. 2-9, 1922.

Districts Join in Great Co-operative Storage and Sales Campaign Under Iron-clad Contracts—District Meetings Next

Wisconsin tobacco growers have put across the much desired pool, and have filed contracts for far more than the necessary 75 per cent of the 1922 acreage, and close to 90 per cent of the 1922 existing acreage. The gigantic nature of the undertaking is beginning to be felt, but its magnitude will in a way operate to lessen the enthusiasm or courage of those who fought for 10 weeks in 1921 and eight weeks in 1922 to bring about the desired result.

First Week Good

During the first week of July, the department of markets was crowded with earnest tobacco growers, who came to file contracts which they had obtained while working as solicitors in the campaign. Great jubilation was felt when the tally indicated that the 75 per cent mark had been passed.

In organizing the state permanently for the pool, the association membership will be divided into four main districts, each district having subdivisions. The four main districts are: District 1—Dane, Rock, Jefferson, Columbia and Green counties. District 2—Crawford, Grant, Richland, Monroe, Vernon and La Crosse counties. District 3—Trempealeau, Jackson and Dunn counties. District 4—Chippewa, Barron and Polk counties.

District 1 will have seven subdivisions; district 2, five; district 3, two; and district 4, also two subdivisions. This is a total of 16 subdivisions, in each of which there will be chosen a director of the association, making 16 directors. Within the subdivisions there will be local meetings held and candidates nominated to serve as directors, subject to the election held in each division.

Try Out Remedies

With the formation of the tobacco pool, growers have a chance to try out the remedies which they have long sought a chance to apply in making their leaf. As is the case with the cheese federation, the tobacco growers who belong to the pool have the virtue of their contracts will feel the pressure from interests which have been in the habit of running the game for all it was worth. To make the financial policies strong enough and broad enough to meet such a task is the next big move to which Wisconsin growers must turn their careful attention.

Another Chance to Sign

Growers are given another chance to sign up for the pool. Owing to the fact that the necessary 75 per cent of the 1922 acreage was filed on July 20th, this throws the way open for adding such recruits as desire to go in before August 1. On that date the list will be closed tight and no additional memberships will be received. No effort will be made to solicit backward growers, but all who may desire to sign their names to the pool may do so by consulting the campaign committees. Write to the department of markets for full information.—Wisconsin Farmer.

Woo Warehouses

Wisconsin has little more than 100 private and cooperative tobacco warehouses for the sorting of leaf. Edgerton alone has 56 warehouses. The region close to Edgerton, notably on Albion prairie, is signed up tight for the pool. Deerfield, Cottage Grove, and most of Vernon county, which are other areas of quality leaf, is way over the top in the pool signatures. Farmers' co-operative warehouse com-

Officers

The superintendent is P. A. Larson, La Crosse, Wis. His assistants are: P. C. Taft, Ames, Iowa; T. L. Bewick, Madison, Wis.; M. F. McNeown, Oshkosh, Wis.; C. C. Turner, Caledonia, Minn.; P. S. Dyer, Preston, Minn.; E. L. Liddle, Sparta, Wis.

Rules

1. Any boy or girl is eligible to compete in this department who is enrolled in a regular club or Smith-Hughes project.

2. All exhibits must be on the grounds and in its place before noon of Tuesday of fair week.

3. Calves and pigs exhibited in this department may also be shown in the open classes if desired.

List of Prizes

Beef Calf, any breed \$40.00 1st \$25.00 2nd \$15.00 3rd \$10.00 4th \$5.00

In addition to the above premiums, Wilson & Co., Packers and Provisioners, of Chicago, Ill., will pay up to \$40.00 to each of the above successful exhibitors toward expenses for attending the International Live Stock Show at Chicago, Ill., Dec. 2-9, 1922.

The Inter-State Fair will pay \$4.00 to every exhibitor of beef calves who are not awarded any of the above four premiums.

Dairy Calf Contest

Beef Calf, any breed \$40.00 1st \$25.00 2nd \$15.00 3rd \$10.00 4th \$5.00

Upon presentation of expense account, the Inter-State Fair will pay up to \$20.00 to each of the above four successful exhibitors toward expenses for attending the National Dairy Exposition at St. Paul, Minn., October 7-14, 1922.

Special premium—The National Holstein-Friesian Association will donate \$30.00 which will be divided pro-rata among all exhibitors of pure-bred Holstein calves where boys and girls own their own calves and have record of cost of production and \$20.00 pro-rata for demonstration teams, demonstrating some Holstein propaganda or topics. Should there be no demonstrating teams, the \$20.00 will be divided pro-rata among all exhibitors.

Pig Contest

Champion pig, any breed \$15.00 Reserve Champion pig, any breed \$10.00

Upon presentation of expense account, the Inter-State Fair will pay up to \$20.00 to each of the two successful exhibitors towards expenses for attending the Boys' and Girls' One Week Course at the College of Agriculture, Madison, Wisconsin.

Pigs

Poland China, Durocs, Chester Whites, Berkshire and any other breed. Premiums will be paid in each class.

REDUCTION IN COST  
OF GOVERNMENT IS  
URGED BY MORGAN

Merger of Boards and Commis-  
sions Asked by Candidate  
as Means to Economy

ELAND, Wis.—Before a meeting of  
railroad men Monday morning, At-  
torney General William J. Morgan, In-  
dependent progressive republican  
candidate for governor, pointed out  
that economy in governmental ad-  
ministration can be brought about  
only by reducing its cost. The one  
way, he continued, to lower its cost  
is by reducing the number of com-  
missions and boards, through aboli-  
tion, consolidation and co-ordination.

The department of state oil in-  
spector and state treasurer agent were  
pointed out as "political plums" that  
could well be abolished, the attorney  
general declared. But there are some  
commissions that must be retained,  
some that are doing good work and  
have been, he said.

"Will anyone tell me why we need  
a state oil inspector as a separate  
state officer? Or why we need a  
state treasurer agent as a separate  
state officer? No, the people, do not  
need that. Every duty of the two of-  
fices that I have named could be dis-  
charged by deputies in the office of  
the secretary of state or the dairy  
and food commissioner.

"There is no reason under the sun  
why the office of legislative reference  
librarian, commonly known as the bill  
factory, and the office of revisor of  
statutes could not be consolidated and  
there you would make room in the  
capitol to bring back some of the de-  
partments that have overflowed. The  
administration of the state govern-  
ment would be benefited by their con-  
solidation. It would mean real effi-  
ciency as well as real economy.

EASTERN TOBACCO  
DISEASE LOCATED  
IN DANE COUNTY

Tobacco Growers Warned to  
Watch for Outbreak of  
"Wildfire"

MADISON, Wis.—Tobacco growers  
are being warned to watch for "wild-  
fire," a serious eastern tobacco dis-  
ease, new to Wisconsin, in letters sent  
out this week by C. P. Norgard, com-  
missioner of agriculture.

The trouble is infectious and is  
caused by bacteria. It was discovered  
in South Carolina in 1917 and has  
since spread to most of the eastern  
tobacco sections. The first cases in  
Wisconsin were found and identified  
by Dr. James Johnson of the experi-  
ment station last week. Since then a  
survey, carried on by the state en-  
tomologist's office with the assistance  
of Dr. Johnson, showed more exten-  
sive distribution than was antici-  
pated. Growers are asked to send sus-  
picious specimens to Dr. Johnson at  
the horticultural building, Madison.

A "wildfire" appears to be con-  
fined to Dane county, but a search is  
being made for it in other sections. At  
least thirty farms are involved, ex-  
tending from Deerfield to Waunakee  
with a center of infection near Burke.  
The total damage will depend on  
weather conditions, and the loss may  
be very severe in the infected fields  
if driving rains occur in late summer.

This disease differs from other to-  
bacco infections in the presence of  
circular, bleached out areas about the  
size of a dime. Later these pale spots  
enlarge and run together. Heavily  
infected leaves are said to be prac-  
tically worthless.

WOMEN AND THEIR CHECKBOOKS

A young woman in a small south-  
ern city recently inherited from her  
aunt a piece of property which  
brought her an income of one hundred  
dollars a month.

She decided to start a bank account,  
and acting upon the advice of her  
father, opened it in the First National,  
although her own preference was for  
the Commonwealth. Shortly after,  
she went to her father in high indig-  
nation.

"Look at this," she said, present-  
ing him one of her checks. "I told  
you that old First National was no  
good. The idea of a bank not having  
fifty dollars no hand!"

Her father gravely inspected the  
check. It was marked, "Insufficient  
Funds."—Everybody's Magazine for  
June.

TWO VIEWPOINTS

Sim and Sam, who hadn't seen each  
other since overseas days, met in the  
street and, after partially strangling  
each other by way of greeting, be-  
gan getting personal.

"Married?" asked Sim.  
"Yes," replied Sam. "You?"  
"None," answered Sim. "You're a  
lucky dog. 'Tain't good for a man to  
live alone."

"No-o-o," drawled Sam somewhat  
dubiously. "Probably not, but some-  
times I'd be willing to try it."—  
American Legion Weekly.

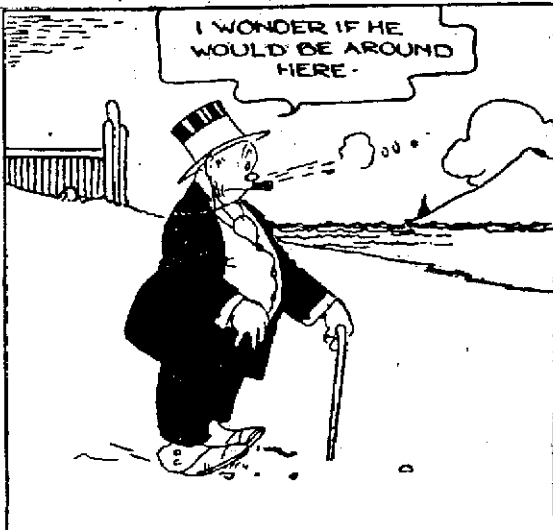

Inopportune  
John Doe—"Some of the gang's  
gonna try breakin' out of jail tonight.  
Wanna join us?"

Richard Roe—"Not on your life  
sentence! On the outside every other  
man is outter work and the housin'  
situation is reported to be somethin'  
terrible."—American Legion Weekly.

MISUNDERSTANDING  
OF BARBERRY DRIVE  
CAUSES GREAT LOSS

Japanese Barberry, City Shrub,  
Does Not Carry Black  
Rust of Grain

MADISON.—July 16.—The Japa-  
nese barberry, now commonly planted  
in Wisconsin cities, is harmless and  
does not carry the black rust of  
grains, according to a statement is-  
sued today by the Department of  
Agriculture at the State Capitol, since  
the extensive interests in this sub-  
ject this season caused by the ac-  
tivities of the Farm Bureau and other  
commercial organizations in fighting  
black rust of grains, considerable  
alarm has been felt by the owners  
of the low Japanese barberry for fear  
these bushes would need to be re-  
moved.

"Extensive investigations and trials  
have been made all along this line,"  
states S. B. Fraeker, state entomolo-  
gist, "and it has been found that the  
Japanese barberry cannot take the  
black rust disease under any con-  
ditions. These bushes are planted in  
ornamental hedgerows and shrub-  
bery plantings around hundreds of  
places in Madison and other Wiscon-  
sin cities and it is fortunate that  
they will not have to be removed."

While the tall, common barberry,  
which carries its berries in clusters  
and has leaves with saw-tooth edges,  
has been practically eliminated from  
all the cities and towns there are  
still thousands of plantings on farms.  
The state and federal departments of  
agriculture are cooperating in a farm  
to farm survey in which thirteen  
teams of two men each are now en-  
gaged in Wisconsin. It is expected  
that all of the southwestern part of  
the state, from Price and Pepin  
counties to Iowa and LaPorte Coun-  
ties, will be covered this season, mak-  
ing a boundary along the Mississippi  
River. Iowa and Minnesota are work-  
ing on the west side of the river at  
the same time. In a few places the  
birds have carried the seeds from  
planted barberry bushes of the dan-  
gerous species to the woods and  
fields and in several areas they have  
spread until they number hundreds  
of thousands.

"I have heard men," said Senator  
Sorghum, "discussing most eloquent-  
ly on the American eagle when what  
their minds were really on was quail  
on toast."—Washington Star.

'Hammer Killing'

Mrs. Albert Meadows, 20, widow  
(top), was beaten to death with a  
hammer at Los Angeles. State-  
ments made by A. L. Phillips, oil  
promoter, led to the arrest of his  
wife, Mrs. Clara Phillips, 23, at  
Tucson, Ariz.

Frogs are always more noisy before  
a rain.

DAIRY BUILDING  
AT "U" TO COST  
STATE \$220,000

Work Planned at Once on  
Structure Which Will Re-  
place 1891 Home

Construction is planned at once on  
a new \$220,000 dairy building which  
has been authorized for the college  
of agriculture by the board of regents  
of the University of Minnesota.

W. C. Coffey, dean of the depart-  
ment of agriculture, made this an-  
nouncement today, although the ac-  
tion of the board of regents was taken  
some time ago. The figure named  
does not include equipment for the  
new dairy building. Plans for the  
structure are being prepared by J. H.  
Forsythe consulting architect for the  
regents, and Dr. C. H. Eckles, chief  
of the division of dairy husbandry  
at University farm.

A model in modern dairy construc-  
tion, the new building will replace  
the old \$40,000 structure built in  
1891 which has since become entire-  
ly inadequate. "For many years," Dr.  
Eckles said, "the university has been  
handicapped by the lack of facilities  
to adequately serve the expanding  
dairy interests of the state. The new  
building will mean a great deal in in-  
struction, in experimental work, in  
gaining the interest of students and  
in enabling the university to perform  
a service to Minnesota dairymen  
compatible with the state's leading  
position in the dairy world."

Tentative plans, according to Dr.  
Eckles, call for a three story build-  
ing with one story wing in the rear  
to house a large dairy products man-  
ufacturing department organized on  
the "unit" plan and equipped with  
the most modern machinery and man-  
ufacturing devices. Special attention  
will be given to cheese and cheese  
problems, with the plan of eventually  
employing a specialist in cheese man-  
ufacture as the already widespread  
interest in this Minnesota product of  
increasing importance develops. Other  
units will be devoted to the manu-  
facture of ice cream, butter and market  
milk with ample cooling, curing,  
hardening and storage rooms for each.  
Phases of daily research and ex-  
perimentation to receive special con-  
sideration in the new building in-  
clude an enlarged department of bac-  
teriology, testing laboratory for  
the analysis of commercial dairy pro-  
ducts and a specially equipped labora-

tory for the study of dairy bypro-  
ducts. The offices of dairy extension  
and of the state superintendent of of-  
ficial cow testing also may be given  
space in the new building.

CANDY AND STAGES OF LOVE

The candy man is the first one  
to know whether Mr. Newlywed's af-  
fections are beginning to cool off.  
Long before his wife expects it, he is  
aware of it—and convinced. That is  
because of the candy Mr. Newlywed  
buys her. No longer does he come  
into the store asking for the "very  
best candy" and wonder for half an  
hour whether she will like it in a  
ribboned or plain container. He  
walks in and asks for a pound of  
chocolates—"any kind!" That is  
the first signal.

When several months later he  
comes in and says, "She wants a box  
of assorted chocolates," it shows that  
things are in a bad way. He is merely  
repeating her order—and has long  
since ceased to buy her any candy of  
his own accord.—New York News.

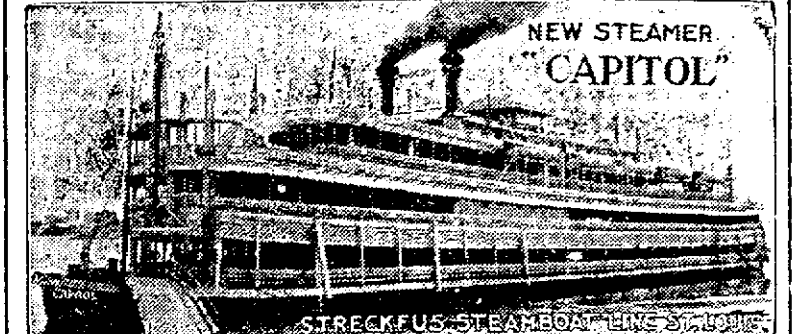

A CHEERFUL GIVER

A colored revival was in full blast,  
and an old fellow was exhorting the  
people to contribute generously.  
"Look what de Lawd's done fo'  
you-all brethren!" he shouted. "Give  
Him a portion of all you has. Give  
Him a tenth. A tenth belong to de  
Lawd!"

"Amen!" yelled a perspiring mem-  
ber of the congregation, overcome by  
emotion. "Glory to de Lawd! Give  
Him mo'. Give Him a twentieth!"—  
American Legion Weekly.
